Legion

Multi-Option Highbay Light

A great example where one product fits many applications, the Legion offers great versatility where you can select wattage, CCT and beam angle options.

Using the easy access switches located at the base of the fixture, you can select between 120W, 160W or 200W, as well as 4000K or 5000K colour temperatures. To adjust the beam angle, simply rotate the lens to the required beam option.
