

VT-950/1150

Large Size Vertical Turning Center
Built in Gear Box with 24" – 50" Chuck

LARGE SIZE VERTICAL TURNING CENTER BUILT IN GEAR BOX WITH 24"-50" CHUCK

The machines can handle a variety of complex processes from turning to milling and drilling in one setting. With the heavy structure this turning centers can cut down your machining process and make your work more precise and productive.

1 Gear / Plant Industry / SCM415 2 BMT85 Turret for Turnmill
3 Flange / Sample / SM45C 4 50" Chuck 5 Piston / Shipment / FCD700

HEAVY DUTY CUTTING FOR LARGE WORKPIECES

VT-950/1150 vertical turning centers are the ideal machines for your large size applications. With the precision hand scraped and polished guide way system in all axes, the unique one piece machine bed design, this vertical centers are rigid and built to absorb vibration and best stability. Hwacheon's advanced air floating system keeps the operation stable and allows for smoothest operations.

Box Way Design Including Air Floating System

The solid box way guide design used for all axes plus Hwacheon's proprietary air floating technology limit's vibrations and displacement which may occur from the friction heat.

Extra Rigid Machine Structure

High Performance Integrated Gear System

The high performance spindle with a built-in high torque gear offers extra high torque at low speed operations and stability as well as precision.

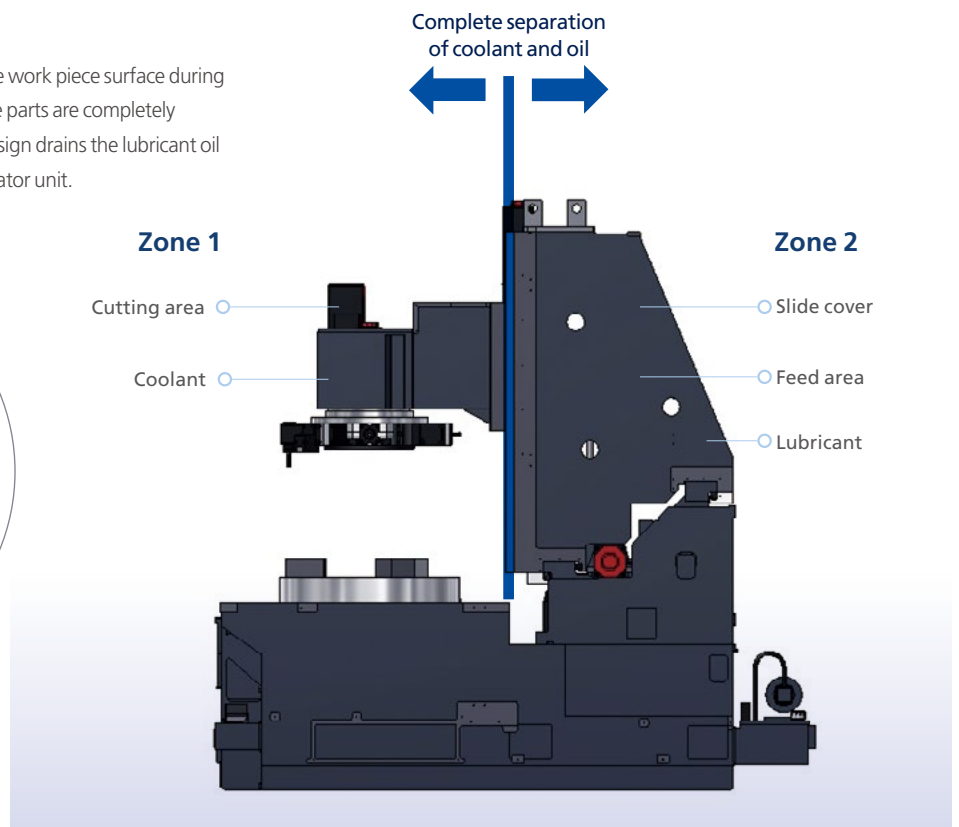

Interference Free Operation

The max. turning diameter zone is designed to provide interference free operations. Providing same max. diameter at full length even on larger work pieces.

Environment-Friendly Design

To prevent the lubrication oil from dripping on the work piece surface during dry cutting, the cutting area and moving machine parts are completely separated. The environment-friendly machine design drains the lubricant oil separately and is eliminating the need for a separator unit.

USER FRIENDLY DESIGN, A WIDE RANGE OF OPTIONAL FEATURES

VT-950/1150 vertical turning centers are designed with the user in mind. The user-friendly machine design and a variety of supplementary features make for stronger, faster, and more precise machining performance.

Fast Chip Removal

The wide, sloped slide cover design and the chip flushing at each side of the table remove the chips quickly and effectively.

Coolant Bed Flushing

Best milling performance in its class

The milling system of the VT-950 and 1150 is powered by a high output spindle motor, the C-axis with 0.001-degree indexing allows the functionalities of a complete machining center in three axis simultaneously.

VT-950/1150 vertical turning centers perform turning, milling, drilling and tapping in one setting.

		VT-950	VT-1150
Capacity	Drilling End milling	Ø32mm(Ø1.25")	
	Tapping	M24	

Turnmill(Optional)

L-HTLD: Hwacheon Lathe Tool Load Detect System (Option)

The Hwacheon Lathe Tool Load Detect System constantly detects and diagnoses the tool load under a process to prevent tool wear and damage, and to keep your machine and tools in optimal shape.

Load Detection Limit 1	Load Detection Limit 2
Alarm + Feed Hold	Alarm + Machine Stop
> When the LIMIT 1 Alarm sounds, the system holds the feed and the machine goes into standby.	> When the LIMIT 2 Alarm sounds, the system stops the machine, and must be reset to operate it.

Standard and Optional product components

Common VT-950 VT-1150

Standard Accessories		Optional Accessories	
• Air Gun	• Manual & Parts List	• Air Blower	• Mist Collector
• Chuck Pressure Compensation	• Manual Guide i	• Auto Door	• NC Cooler
• Coolant System	• Set of Soft Jaws (24")	• Chip Conveyor & Bucket, Back Type / Side Type	• Set of Hard Jaws - 32"
• Door Interlock	• Set of Soft Jaws (40")	• Chuck Dual Pressure System	• Set of Hard Jaws - 32" / 40" / 50"
• Foot Switch	• Signal Lamp with 2 Colors (R, G)	• Chuck Pressure Check Switch	• Signal Lamp with 3 Colors (R,G,Y)
• High Pressure Pump 6bar	• Spindle Cooling System	• Chuck Pressure Compensation	• Tool & Work Counter, External / Internal
• Hydraulic Chuck & Cylinder (24" Solid)	• Tool Kit & Box	• Coolant Gun	• Tool Life Management
• Hydraulic Chuck & Cylinder (40" Solid)	• Tooling System	• Gap 120mm	• Tool Presetter (Automatic)
• Hydraulic Unit 40kg/cm ²	• Turret 12 Station	• High Pressure Pump 15bar	• Transformer
• Leveling Bolt & Plate	• Work Light	• Hydraulic Chuck, 32" / 50" Solid	• Turnmill Function Including C-axis (0.001)
• Linear Scale (X / Z)	• 10.4" Color LCD	• Independent Chuck, 32"(4-jaw)	- Opt 1 : α8 / 10,000i Motor
• Lubrication Unit		• Independent Chuck, 40" / 50" (4-jaw)	- Opt 2 : α8 / 10,000i Motor
		• L-HTLD (Lathe-Hwacheon Tool Load Detect)	• Turnmill Holder, Axial / Radial
		• Linear Scale (X / Z)	• U-Drill Holder
		• Magazine 16 Tools
