OZmist®
TOTAL CLIMATE SOLUTIONS

Australia's Mist Cooling Manufacturer & Cooling Specialist

The Only All-Weather Oscillating Fan on the Market Suitable for Outdoor use.

FSD2460 OUTDOOR MIST FANS

Our FSD2460 mist fans are the only oscillating fans on the market suitable for outdoor use. Exclusive to OZmist and available in gloss black, they deliver strong airflow, quiet operation and sleek design.

For summer 25/26, **OZmist's new FSD2460 range** sets a benchmark with IPX55-rated motors and a dual-layer electro-dip and powder coat finish for durability and corrosion resistance.

Built for outdoor venues, they deliver cooling, savings and health benefits, even in extreme heat, without drips or wet areas. Plus, the mist helps keep flies away!

The FSD2460 range replaces the KTW series (discontinued mid-2025).

Keeps your venue comfortable, staff morale high, and business ahead of the competition, even on the hottest days.

FSD2460 Black Gloss Powder Coat

- 600mm 4 blade fan Fabricated from Aluminium
- Smooth Quiet Operation & Low Noise Motor
- 3 Speed Setting
- IPX55 Weatherproof and Outdoor Rated
- Tilt Adjust + Oscillation Lock/Release
- Fitted with a six nozzle stainless steel misting ring and 6 screw in, non-drip ultra fine nozzles
- Black Gloss Powder Coated Shroud (660mm diameter)
- Fans are treated first with an electro dip coating to provide a corrosion-resistant primer, followed by a powder coat (black gloss) top coat to give superior durability and an attractive finish. Metal components are zinc plated during construction then powder coated.
- Supplied with Pre Drilled Wall Mounting Brackets Ready for Installation

Kit's Available, with everything ready to install. Available for immediate dispatch, fast local Australia wide delivery!

Key benefits:

- **Exclusive IPX55 Outdoor Rating** – With a water ingress rating of IPX55, OZmist's FSD outdoor fans are designed to withstand harsh outdoor conditions. **The Only One of its Kind in Australia and Exclusive to OZmist!**
- **Powerful & Quiet Performance** – The FSD's 4 blade design helps to reduce noise and 'soften' the air flow
- **Customizable Airflow** – 3-speed settings, tilt adjustment, and oscillation control. The air stream from these FSD2460 fans will throw cool refreshing air over 8+ metres.
- **OZmist Cooling Technology** – Designed to create an ultra fine mist that atomises upon release. Water is supplied via tubing from a high pressure pump module, to each fan's stainless-steel misting ring & series of nozzles, generating a superfine 10-micron mist, lowering temperatures approx 8°C without creating wet areas.
- **Versatile Installation** – FSD's are compatible with all OZmist high pressure pump modules. Supplied with pre-drilled wall mounting brackets and simple assembly make installation quick and hassle-free.
- Beat the Heat. Call, email or complete the contact us form!

As multiple fans are able to connect to a single high-pressure pump, OZmist's FSD outdoor fans offer a customizable cooling system that can be tailored to fit any space, large or small.

Specifications: Each **FSD2460** fan requires 240v/10amp power, supplied with wall plug & 1.5m lead (draws 230v / 50Hz 150 Watts Amps 0.72)

Easy Installation

1. FSD fans are supplied as a wall mount fan. (Optional Pedestal Pole and Bases are available at an extra cost) FSD fans require assembly.
2. Brackets wall mount onto a solid surface with screws or bolts.
3. Recommended height at fan centre - from 2.7 to 3.5m height
4. Fit the fan stem into the mounting bracket, tighten the locking screws.
5. All hardware, pressure tubing and fittings are supplied.
6. Multiple fans can connect to a high pressure pump module to cool the largest venues and outdoor areas!
7. *FSD fans can also be supplied without the mist ring, fittings and nozzles, for installation as a standalone fan.

Beat heat stress and fatigue, with an OZmist outdoor cooling system.

"We have now installed a number of OZmist systems in our pubs, They work great for the customers and even help with the flys. If you would like to see them in action go to The Doonan, We use them everyday. They are very easy to install and maintain."

The Comiskey Group

"Having the system has given us a point of difference in comparison with our competitors and there has been a noticeable improvement in the environment around the venue.

Customers provide positive feedback about the misters regularly, especially on hot days. Employees also benefit from the improved working conditions and we're also not as concerned when hotter days are forecasted knowing that we have a solution in place.

It becomes a talking point amongst customers and encourages repeat visits knowing that there are cooler conditions on offer. It's also simple to use with just a flick of a switch to turn on and off."
