

PULSE OXIMETER

Accurately measure SpO₂ and pulse rate

The Suresense pulse oximeter is designed for non-invasive spot-check of SpO₂ and pulse rate. This product is suitable for use in hospitals, day surgeries, medical centres, aged care facilities and home care.

Product Details

- Lightweight and Easy-To-Use
- Colour OLED display
- Friendly menu
- Manually adjust the direction of interface
- Low Battery voltage indicator
- Adjustable low SpO₂ alarm function
- Automatically switches off when no signal
- Powered by two AAA alkaline or rechargeable batteries
- Advanced DSP algorithm to minimise motion artefacts and improve accuracy of low perfusion SpO₂
- Measurement Range: 35-100%
- Measurement Accuracy: 2% (70%-100%)
- WARRANTY: 1 Year
- ARTG*: 340050
