

Designer's Choice HX type Coverplate EJs

Designer HX: Revolutionary design combines slim visual width, low profile and hidden fixings. This heavy duty floor coverplate system is designed for use in polished concrete, roll-coat epoxy, tiles, vinyl and other floor finishes. Low profile and slender width allows for minimal substrate rebating. Leaves no visual grout line when applied to polish or trowel-finished concrete. Suitable for bulky-goods retail (ie Masters, Ikea) with rebating constraints. Stadiums, transit-centres, carparks and other buildings with suspended-slab concrete.

NB:
No bump option:

Dz HX

Previous Model No: UADJ EHD

Performance

- Extra heavy duty
- Concealed Fixings
- Low profile / Retrofit
- High Capacity

Bead blasted cover plate
Slip resistance Class V
Tested to AS4586 2013

Compatible Finishes

- Tiles
- Vinyl
- Carpet
- Epoxy
- Exposed Concrete

Standard Length

4.8m

Standard Finish

Anodised
