

300kg Hydraulic Scissor Lift Table – 880mm Lift Heavy Duty Warehouse Lift Table

The **MTT30 Hydraulic Scissor Lift Table** is a durable and efficient manual lifting solution designed to improve safety and productivity in warehouse, workshop, and material handling environments. With a **300kg load capacity**, it is ideal for handling moderate-weight goods while reducing manual lifting and bending strain.

A precision **foot-operated hydraulic pump** allows smooth and controlled lifting up to **880mm**, while the hand-operated release lever ensures safe and accurate lowering of loads. This makes it suitable for repetitive handling tasks such as picking, packing, and assembly work.

Built for everyday industrial use, the MTT30 features a robust steel frame, high-visibility finish, and durable castor wheels for smooth mobility and stable positioning across a variety of work environments.

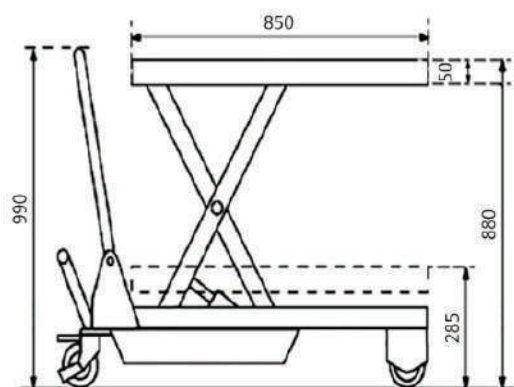

Features

- 300kg load capacity for light to medium industrial use.
- Hydraulic scissor lift system for smooth vertical lifting.
- Foot-operated pump for ergonomic, low-effort operation.
- Hand release lever for controlled lowering.
- Rear wheel braking system for secure positioning.
- Overload bypass valve protects hydraulic system from damage.
- Lockable urethane castors with toe guards for safety.
- Durable polyurethane wheels suitable for delicate flooring.
- Quick release system for efficient operation.
- High-visibility powder-coated safety yellow finish.
- Easy manual push design for workplace mobility.

Specifications

Model		MTT30
Capacity	(kg)	300
Minimum Height	(mm)	285
Maximum Height	(mm)	880
Table Size	(mm)	850 × 500 × 30
Castor Size	(mm)	Ø125 × 40
Handle Height	(mm)	990
Foot Pumps to Max Height	(strokes)	27
Net Weight	(kg)	77
