## ***Automatic Hamburger Machine HA-2200***

*Production: up to 2200 single forms per hour with variable speed.*

*The forming drum ejects the product every complete round (360°).*

*Different drums available (single, double, triple forms) and sizes up to 120 mm Ø.*

*Adjustable thickness of the piece from 4 to 34 mm depending on the drum.*

*Single phase motor 220-240V 50Hz 0.75 HP / 0.55 kW (2.4 Amp)*

*Operation: Automatic or Manual with the foot pedal*

*Hopper Capacity: 25 liters / 15kg (Optional 45 lt. / 25 Kg)*

*Automatic paper attachment + 5.000 complimentary papers*

*Optional Auto wire cleaner (must be connected to a compressor)*

*330 mm length Conveyor belt (Optional 750 mm)*

*Overall dimensions: 70 x 60 x 64 cm (Net weight: 90 kg)*

# AUTOMATIC HAMBURGER MACHINES

All models features as standard: Variable speed, 25 litres hopper ( $\pm 15$  Kg) , conveyor belt of 330 mm length, manual wire cleaner and foot pedal. Every machine includes 2 different bottom paddles (with different width) to ensure all products will be perfectly formed.

## Motor specs:

**HA-2200:** Single phase motor 220-240V 50Hz 0.75 HP / 0.55kW (2.4 Amp consumption).

**HA-4400:** Single phase motor 220-240V 50Hz 1 HP / 0.75kW (3.3 Amp consumption).

*Other voltages available on request: 110V single phase - 380V 3 phase. 60 Hz.*

## **Model**

### **HA-2200 (up to 2.200 single forms per hour).**

Equipped with a forming drum that ejects the product every complete round (360°).

Add one of the next available forming drums:

#### **Forming drum with a single form shape**

*Single form shape up to 120mm diameter with adjustable thickness up to 24mm*

*Single form shape up to 120mm diameter with adjustable thickness up to 34mm*

#### **Forming drum with a double form shape**

*Double form shape up to 55mm diameter with adjustable thickness up to 24mm*

*Double form shape up to 55mm diameter with adjustable thickness up to 34mm*

#### **Forming drum with a triple form shape**

*Triple form shape up to 35mm diameter with adjustable thickness up to 24mm*

*Triple form shape up to 35mm diameter with adjustable thickness up to 28mm*

---

### **HA-4400 (up to 4.400 single forms per hour).**

Equipped with a forming drum that ejects the product every half round (180°).

Add one of the next available forming drums:

#### **Forming drum with a single form shape**

*Single form shape up to 120mm diameter with adjustable thickness up to 24mm*

*Single form shape up to 120mm diameter with adjustable thickness up to 34mm*

#### **Forming drum with a double form shape**

*Double form shape up to 55mm diameter with adjustable thickness up to 24mm*

*Double form shape up to 55mm diameter with adjustable thickness up to 34mm*

#### **Forming drum with a triple form shape**

*Triple form shape up to 35mm diameter with adjustable thickness up to 24mm*

*Triple form shape up to 35mm diameter with adjustable thickness up to 28mm*

---

## **COMMON OPTIONS AVAILABLE FOR BOTH MODELS (HA-2200 & HA-4400)**

Automatic paper attachment + 5.000 complimentary papers

45 Litres hopper with about 25 Kg capacity

Extended conveyor belt 750 mm length

Auto wire cleaner (must be connected to a compressed air supply of at least 4 bar)

---

### **HA-2200 model with recommended options:**

Machine with a single form shape drum (up to 24 mm thick)

+ Automatic paper attachment

### **HA-4400 model with recommended options:**

Machine with a single form shape drum (up to 24 mm thick)

+ Automatic paper attachment + Extended conveyor belt 750 mm length

+ Auto wire cleaner
