

9000 F

PERFECT FOR HIGH VOLUME
FILTER COFFEE SERVICE

The new WMF 9000 F automatic filter coffee machine ensures first-class moments of pleasure for the mass catering sector. Despite its slim dimensions, the powerhouse impresses with an output of up to 100 litres per hour, and the boiler also guarantees that coffee lovers never have to wait long for their beverages.

Patented brewer design doesn't require paper filter or manual handling

Automated cleaning process with almost no manual intervention

Hot water and coffee dispense from front of machine for Jug service

A 10" touch screen with animations gives new levels of easy user control

Brew directly into 20L urns on trolleys for large scale coffee service

WMF CoffeeConnect is built in and allows you to monitor your 9000F

Dual hoppers give option of 2 coffees or double capacity

Waste system strains out coffee from drainage for ease of disposal
