

APS 1212 Charger

The APS AC to DC battery charger has a multi rate charging function to extend battery life. It also has LED status indicators to indicate power on, floating charge or equaliser charge status. It provides both overload and short circuit protection as well as temperature compensation to ensure safe charging without damage.

Some key features include:

- Light and compact
- Automatic multi-rate charging setup
- Temp. sensor for optimal charging
- LED status display
- Parallel operation module available
- Short circuit protection
- Reverse polarity protection
- Overload protection
- Automatically controlled fan
- Temperature compensation
