

Free, Versatile, New-Fashion Choice

GIVE YOU MORE POSSIBILITIES

It upholds Runyee's product development philosophy and integrates stylish elements. This makes it a reliable and ideal doctor companion during diagnosis and treatment.

Care-11D Dental Unit

The multi-angle adjustable headrest can be adjusted quickly and easily

Both strong and weak suction have a delay function to avoid pipeline blockage

The damping-type hanging rack is clean and hygienic, greatly reducing the risk of accidental equipment falling

The handrail can rotate significantly in the vertical direction, providing users with convenient movement both upward and downward

The enhanced structure of the air brake handle provides a better grip, making it easier to maneuver the dental console

Selection of Three Leather Wrapping Process

With linkage mechanism and chair lifting safety protection system

Comfortable high-end sofa or imported leather

One-piece solid steel plate: The connecting piece is a 20mm thick steel plate, providing a more stable center of gravity and enhancing overall stabilization.

The hanger can rotate 90° inside and outside for easy operation, allowing the hiding of handpieces under the dentist console to prevent scratches to dentists and patients. The hanger can also tilt up and down by 45°, and its large hole position facilitates blind insertion operations by dentists

Multiple Color Choices of Leather Cushion

A more substantial chassis base ensures increased stability of the chair body, with a maximum load capacity of up to 100kg.
