

Electric Towing Tug – 1100kg Capacity – Compact Cart & Bin Mover with Swinging Hitch

The KMT-UT110 Electric Towing Tug is a compact and versatile solution for safely moving loads up to **1100kg** in hospitals, airports, warehouses, retail stores and industrial facilities. Designed to reduce manual handling effort, this battery-powered tug is ideal for moving carts, trailers, hoppers, bins and other wheeled equipment.

Featuring a compact design, tight turning radius and adjustable swinging hitch system, the KMT-UT110 provides excellent manoeuvrability in narrow aisles and confined workspaces. The electric drive system, ergonomic controls and automatic braking features allow operators to move loads safely and efficiently.

Features

Powerful 24V DC Drive Motor:

- 800W high-torque motor provides reliable performance for towing applications.

Enhanced Safety Features:

- Emergency stop buttons located on the handle and rear of the unit.
- Electromagnetic disc brake with automatic dead-man safety function.
- Manual brake release lever for emergency use.
