# DSM250 SCHWAMBORN FLOOR GRINDER

**FASTER. SMARTER.  
FASTER**

“ Our new DSM250 smashed the other one, it worked so well the boys were grinding almost 3 times what the other would remove. The speed of the Schwamborn is a weapon and just glides over the floor ”

- SHOEY

## APPLICATIONS

Grinding and preparing of concrete, screed and stone floors, removing glues, paints, coatings, fillers and level uneven floors. This machine can also be used to do resurfacing and buffing on timber floors and polishing of edges for concrete.

## FEATURES & BENEFITS

- ✓ **Increase your edge grinding speed by up to 33%**, saving you from grinding on your hands and knees. The DSM250 Grinder allows the grinder to swivel left to right to grind up to the edges.
- ✓ **Perfect finish on every floor** with the flexible coupling the machine will prepare, remove or repair leaving the floor level.
- ✓ **Complete dust control**, means you spend less time on site doing clean up. Comes with a dust skirt and wheel guard attachment to grind along the edges so you can grind on every job dust free.
