Technical Data Sheet

Garden Lock Binder

One part water based binder for stones, pebbles and wood chips.

Garden Lock Binder is a one part water based binder which possesses a high level of UV resistance and water resistance in the cured form and provides an excellent bond to a variety of stones and pebbles.

FEATURES:

Water Based
Non Toxic
Fast Drying

APPLICATIONS INCLUDE:

- Tree Surrounds
- Top of pot plants
- Garden Beds
- Binding stones for garden paths
- Art & Craft applications
- Pedestrian pathways

DIRECTIONS FOR USE:

- Ensure Stone or Pebbles are clean and dry before use
- Ratio of stones / pebbles to Binder is 4% binder content (eg 10 kg of stones to 400 gms of Stone & Pebble lock binder)
- First add the stones / pebbles into a clean bucket or wheel barrow (with plastic liner) before adding the stone & pebble lock binder
- Ensure you are wearing gloves and then mix the stone and pebble lock in with the stones for approx. 4 minutes until all the stones / pebbles have a generous coating all over.
- Now place the stones into your desired position and not disturbing them for at least 24 hrs whilst the binder locks the stones together.

PRECAUTIONS:

- For best results please ensure accurate amount of binder is used at all times.
- Do not apply directly onto your plants, leave at least 50mm around the stem of the plant.

STORAGE & HANDLING:

Storage:

For optimum shelf life store in tightly closed, original containers out of direct sunlight between 15°C to 25°C and be protected from freezing. Close containers air tight after use. For best performance, use Garden Lock Binder within 12 months. For any information pertaining to disposal of Garden Lock Binder, refer to the Safety Data Sheet

DISPOSAL:

Please dispose of empty container and residue in accordance with your local waste management regulations.

HEALTH & SAFETY:

In use, please ensure that Occupational Health and Safety requirements are observed. If swallowed, give plenty of water. Do not induce vomiting. Seek medical attention.

Skin: Wash off with warm water and soap.

Eyes: Irrigate with water for 10 minutes and see a doctor.

Safety Data Sheet available upon request

PRODUCT DATA	
Appearance	White Liquid
Solids	46%
Viscosity	3300 cps
pH	8.5
Specific Gravity	1.04
Clean Up	Warm Soapy Water
Shelf Life	Up to 12 months out of direct sunlight

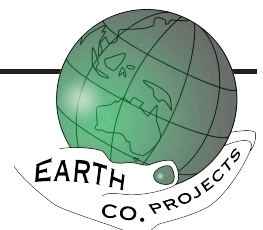

Issue Date: 09/6/2020

Version: 1
