TO WHOM IT MAY CONCERN

Reference Statement:

ESI Scholer Incinerators, Environmental Compliance Design & Technical Standards

Reference: ESI Scholer –Multi waste incinerators.

Scholer Industries Pty. Ltd. confirm that the ESI-Scholer incinerator supplied will comply to the US EPA & WHO environmental standards for small HMIW incinerators.

This is Conditional on;

- The incinerator is operated to the instructions that are provided
- Correct operation procedures need to be followed by the operator/s.
- These are written into the Operation & Maintenance manual we provide.

General Information:

A business partnership exists between Scholer Industries P/L & Engineering Solutions International Co. Ltd in products produced, trading and branded as ESI-Scholer, to promote and supply a range of Incinerators and W2E equipment into the world market.

Scholer Industries Pty. Ltd: Australian owned and managed Incinerator manufacturer and supplier for over 40 years. Business commenced in 1976 in Perth. Western Australia. Company Incorporated in 1980. Director: Neal Scholer.

Engineering Solutions International. Co. Ltd (ESI): Australian owned by Tony Cittadini, Managing Director. Designer and manufacturer of Incinerators and combustion equipment for over 4 decades. Tony is an experienced combustion and mechanical engineer. Primary focus has been R & D projects. Company Registered in Bangkok, Thailand in 1999.

ESI oversees the fabrication of all the incinerators as well as the installation of the refractory and surface coating to completion and FAT before shipping. All work is carried out to QA/QC standards. ESI's Emission Test Reports and Client References & Incinerator Projects are available on request.

Yours Faithfully,

.....
Neal Scholer
Director
