

QUIET & ZERO-EMISSION

HD160

RIDE-ON POWER SWEEPER

The HD160 industrial sweeper is the perfect choice for effective floor cleaning in sensitive or tightly regulated environments.

With extremely quiet (75.5dB) operation, the HD160 delivers a discreet yet effective clean. The extra-large battery compartment houses a 360Ah battery pack, with an AC powered motor delivering 50% greater run time compared to traditional battery-powered sweeping machines.

The HD160 commercial floor sweeper offers a fast and complete clean with a 300-litre waste hopper and direct throw sweeping system. The 1300mm sweeping path allows you to cover more ground in less time. Add an optional second side broom to increase the sweeping path to 1550mm, for spotless floors in record time.

FEATURES

- AC traction pack battery system uses game changing technology to reduce noise and increase run times by 50% compared to traditional sweepers
- The direct throw sweeping system pitches debris directly into the hopper
- 8m² green polyester filter is water resistant, meaning that the filter will last up to five times longer than traditional filters
- Self-levelling, spring loaded brush enables HD160 to clean across multiple surfaces without stopping to manually adjust brushes
- Electric filter cleaner with simple switch activation to automatically shake the dust out of the filter, into the waste hopper
- 300L waste hopper with hydraulic dump height of 1400mm allows for longer sweeping periods
- Hydraulic direct drive with fewer moving parts reduces potential maintenance concerns
- Complete with power steering to maximise operator comfort and ease of use

SPECIFICATIONS	HD160E
Cleaning Width	1300mm sweep path with main broom and one side broom
Theoretical Cleaning Capacity	8,700m ² per hour (max. speed)
Power Supply	36V, 360Ah traction pack battery
Waste Hopper Bin Capacity	300L with hydraulic high dump
Filter Type	8m ² green polyester filter
Variable speed	0-5Km/hr
Machine Dimensions	2220 (L) x 1350 (W) x 1460 (H)mm
Weight	1300kg
