

# Vision Inspection

Optical Inspection for quality assurance of packed products

## ! Benefits

- Ensure quality
- Document quality
- Optimize production
- Increase sustainability

Food Safety

Easy Operation

Industrie 4.0

Consumers and retailers demand excellence in foods products and packaging. Regulations require correct critical food safety markings, and attention towards reducing waste in the production processes is more important than ever. Minebea Intec's Vision systems perform a reliable and efficient quality control in food packaging lines and facilitate production optimization. Our standardized Plug-and-Play solutions for packaging inspection are all based on the same leading technology and software.

## Our product range offers a complete optical packaging inspection

- ! Reliable, accurate 100% inspection ensures product quality and food safety by rejecting all products with unacceptable errors.
- ! Increase efficiency and reduce waste, downtime and through efficient automated inspection, monitoring and intelligent use of vision data.
- ! Reliable vision data allows complete documentation of all inspections - to meet and exceed any retailer demands.
- ! Become more sustainable through reduced food loss, waste and environmental impact achieved by optimization features.

Statistics

# VisioPointer®

Stand-alone unit with built-in conveyor & ejector

VisioPointer® reliably automates inspection processes in food packaging lines using leading vision technology and multiple inspection types. Its intuitive interface and intelligent data usage allow operators to ensure product quality, reduce waste and downtime, and optimize the production. As a plug and play vision solution, VisioPointer® makes thorough quality control achievable for any food manufacturer with easy implementation, operation and maintenance.

## Highlights

- Handles unlimited number of product variations
- Automated, compact end-of-line inspection
- Integrated operator panel with touch screen
- Intuitive interface for efficient operation
- Cloud-enabled Production Intelligence
- ERP connectivity
- Control your fleet with Central Product Management

## Vision features

- Print on foil
- Top inspection
- Bottom inspection
- Side inspection
- Punching symmetry
- Contents
- Seal inspection
- Seal presence
- Label
- Label 360°
- Barcode
- Print

## Technical specifications – VisioPointer®

Configuration	
Configuration	1 top camera

Inspection Specifications	
Camera Type	GigE Line Scan, light included
Max. dim. of inspected product	110H × 280W × 350D mm
Max. conveyor speed	800 mm/s

Mechanical Specifications	
Material	AISI 316 Encap. parts: Stainless steel AISI 304
Dimensions	1930H × 1382W × 660D mm (excl. shield)
Weight	350 kg
Conveyor dimensions	1400W × 300D mm
Transport Height	900 mm (+/- 50 mm)
Ejection mechanism	Mechanical Pusher (Standard)
Enclosure Rating	IP 64

Built-In Computing System	
Processing system	Industrial PC
Operating system	Windows 10 IOT Enterprise LTSB
Interface	Gigabit Ethernet and digital I/O
Communication protocol	OPC UA and REST
HMI	21,5" full HD multi-touch pane
Language	All languages available

Supply	
Processing system	Industrial PC
Operating system	Windows 10 IOT Enterprise LTSB
Interface	Gigabit Ethernet and digital I/O

# VisioCompact®

Compact Stand-alone unit with conveyor

VisioCompact is a stand-alone vision system that efficiently performs thorough quality control of most types of food packaging within a small footprint. The system has a built-in conveyor, ejector and operator panel. With TriVision's intuitive interface and intelligent data usage, VisioCompact® enables operators to efficiently ensure product quality, reduce waste and downtime, and adjust production parameters for an improved OEE.

## Highlights

- Automated, compact end-of-line inspection
- Integrated operator panel with touch screen
- Intuitive interface for efficient operation
- Quick changeovers and product teach-ins
- Real-time data overview of production performance
- Cloud-enabled Production Intelligence
- ERP connectivity
- Control your fleet with Central Product Management
- Handles unlimited number of product variations

## Vision features

- Label
- Label 360°
- Barcode
- Print

Configuration	
Configuration	1 bottom + 1 top camera conveyor

Inspection Specifications	
Camera Type	GigE Line Scan, light included
Max. dim. of inspected product	100H × 280W × 280D mm
Max. conveyor speed	800 mm/s

Mechanical Specifications	
Material	AISI 316 Encap. parts: Stainless steel AISI 304
Dimensions	Standard: 1680H × 1128W × 610D mm Optional: 1680H × 808W × 610D mm
Weight	165 kg
Conveyor dimensions	Standard: 1128W × 300D mm Optional: 808W × 300D mm
Transport Height	900 mm (+/- 50 mm)
Ejection mechanism	Mechanical Pusher (Standard)
Enclosure Rating	IP 64

Built-In Computing System	
Processing system	Industrial PC
Operating system	Windows 10 IOT Enterprise LTSB
Interface	Gigabit Ethernet and digital I/O
Communication protocol	OPC UA and REST
HMI	15,5" full HD multi-touch panel
Language	All languages available

Supply	
Processing system	Industrial PC
Operating system	Windows 10 IOT Enterprise LTSB
Interface	Gigabit Ethernet and digital I/O

# SmartInspector®

Simple installation on top of existing conveyor

SmartInspector Thorough Inspection of Packaging® is a plug & play vision solution for the most essential inspection requirements. The system is mounted on top of an existing conveyor with brackets, allowing a simple, flexible installation into most production lines. While being the most compact solution for packaging inspection in the TriVision range, SmartInspector® still has TriVision's powerful software, intuitive interface and intelligent data facilitating efficient quality assurance and production optimization.

## Highlights

- Automated, compact end-of-line inspection
- Integrated operator panel with touch screen
- Intuitive interface for efficient operation
- Quick changeovers and product teach-ins
- Real-time data overview of production performance
- Cloud-enabled Production Intelligence
- ERP connectivity
- Control your fleet with Central Product Management
- Handles unlimited number of product variations

## Technical specifications – SmartInspector®

Configuration	
Configuration	1 bottom + 2 top cameras conveyor, rejecter

Inspection Specifications	
Camera Type	AV Mako G-507C PoE
Max. dim. of inspected product	150H × 280W × 280D mm
Max. conveyor speed	800 mm/s

Mechanical Specifications	
Material	AISI 304 steel
Dimensions	885H × 600W × 460D mm
Weight	40 kg
Conveyor dimensions	Multiple width available, 340 mm max. conveyor belt width
Ejection mechanism	Optional

Built-In Computing System	
Processing system	Industrial PC
Operating system	Windows 10 IOT Enterprise LTSB
Interface	Gigabit Ethernet and digital I/O
Communication protocol	OPC UA and REST
HMI	15,6" full HD multi-touch panel
Language	All languages available

Supply	
Processing system	Industrial PC
Operating system	Windows 10 IOT Enterprise LTSB
Interface	Gigabit Ethernet and digital I/O
