Paxum Horizontal Fully Automatic Pallet Stretch Wrapping Machine, the ideal solution for efficient and convenient pallet packaging in various industries. Our machine utilizes LLDPE stretch film to securely wrap bulk cargos, providing essential protection against dust, moisture, and damage during transportation and storage.

Features

- **Smart Touch Control System:**
User-friendly, language-independent interface
- **Double Film Carriage:**
Lightweight aluminium ring for high-speed performance
Equipped with dual film carriages
Enables minimum lengths of up to 500mm
- **Seamless Film Cutting and Clamping:**
Streamlined automation for efficiency
- **Durable Conveyor:**
Utilize roller conveyor for seamless transition

Highlights

- Efficient, energy-saving operation
- Customizable wrapping options
- Horizontal wrapping for long products
- Reliable Siemens control system
- Powerful SEW motor drive
- Suitable for various industries

Options

- Input and Output Conveyor
- Roller Conveyor/ Belt Conveyor

Specifications

Maximum Wrapping Size	400mm/600mm (Diameter)	Maximum Film Diameter	200mm
Ring Diameter	600mm/ 800mm	Control Type	PLC
Minimum Product Length	500mm	Safety Door	Available
Maximum Loading weight	200kg	Machine Weight	400KG
Output Height	500mm – 1000mm	Machine Size	L: 4718mm W: 1503mm H: 1790mm
Motor Drive	0.75KW	Voltage	380V/220V/ 110V/ 50HZ/ 60 HZ/ 60 HZ 1 P/3P
Put Film & Cut Film	Automatic (Manual Option)	Conveyor Width	600mm
Film	LLDPE	Max Load	50 KG/M
Film Width	150mm	Language	According to Customer's requirements
