Euronda®
Monoart

Euronda®

It's all about protection

Euronda, synonymous with outstanding protection in the medical field for over 40 years. With an Italian origin and an international vocation, it has four branches operative and sells products in over 100 Countries worldwide. Euronda is one of the benchmark companies for infection control.

Production includes four specific product lines.

Monoart®, a wide range of disposable products, accessories and personal protective equipment that teams maximum product quality with vibrant colours. **Pro System**, the Euronda Total Protection System: a complete line of products to optimise the whole sterilisation process and make it safer. **Alle®**, line of disposable products that has been specially designed to create an uncontaminated sterile field for surgery, thus preventing the risk of infections. **Eurosteril®** is the Euronda line of pouches and rolls dedicated to sterilisation. All Euronda products guarantee maximum quality and protection standards for doctors, professionals and patients.

Monoart® Face Masks

Safe

Class I Medical Device, ideal for protection from dust and aerosols, in accordance with the EN 14683 standard and with the ASTM F 2100.

Comfortable

Internal lining in non-woven hydrophilic fabric and built-in nose bridge - absorbency and comfort in a single medical device.

Practical

New package with an "open/close" system offers maximum practicality of use and preserves the integrity of the masks.

Monoart[®] Face Masks Protection 3

Disposable, hypo-allergenic face mask with three layers in three different materials:

- Soft, coloured and water-repellent non-woven fabric for improved protection against dust and humidity;
- PFE (Particle Filtration Efficiency) filter and BFE (Bacterial Filtration Efficiency) filter $\geq 99\%$;
- Comfortable non-woven cotton lining for extra absorbance of sweat and humidity.

It is ideal for protection from dust and aerosols: $\Delta P < 2.7 \text{ mm H}_2\text{O/cm}^2$ in accordance with the EN 14683 standard (differential pressure: surgical mask breathability rating). Built-in nose bridge.

Mix Monoart[®] Face Masks Protection 3: six boxes of face masks Protection 3 (50 pcs), one box per colour, (light blue, lilac, lime, pink, orange, yellow)

CE Type Ref: MONOART[®] FACE MASK PROTECTION 3

Classification:

Medical Device Class I
EN 14683: Type II
ASTM F2100: Level I

Colours:

Blue lagoon, green, light blue, lilac, lime, pink, orange, yellow, white

Packaging:

Box of 50 masks with an "open/close" system.
Carton of 20 boxes

Soft coloured and water repellent non-woven fabric

Particle and bacterial filters
PFE and BFE > 99%

Comfortable non-woven cotton

Monoart[®] Face Masks Protection 3 Floral

Disposable hypo-allergenic face mask, composed by four layers in three different materials:

- Soft, coloured and water-repellent non-woven fabric with floral motifs;
- PFE (Particle Filtration Efficiency) filter and BFE (Bacterial Filtration Efficiency) $\geq 99\%$;
- Two layers of comfortable, absorbent non-woven fabric lining for effective absorption of sweat and moisture.

It is ideal for protection from dust and aerosols: $\Delta P \leq 3.0 \text{ mm H}_2\text{O/cm}^2$ in accordance with the EN 14683 standard (differential pressure: surgical mask breathability rating). Built-in nose bridge.

 CE Type Ref: MONOART[®] FACE MASK PROTECTION 3

Classification:

Medical Device Class I
EN 14683: Type IIR
ASTM F2100: Level III

Colours:

Floral burgundy, floral light blue, floral lilac, floral lime, floral pink,

Packaging:

Box of 50 masks with an "open/close" system.
Carton of 20 boxes

Monoart[®] Face Masks Protection 4

Disposable, hypo-allergenic face mask with four layers in four different materials:

- Soft, colourful water-repellent non-woven fabric for unparalleled protection from dust and moisture;
- PFE (Particle Filtration Efficiency) filter and BFE (Bacterial Filtration Efficiency) filter $\geq 99\%$;
- Polymeric filter for excellent fluid resistance, 160 mm Hg;
- Comfortable non-woven cotton lining for extra absorbance of sweat and humidity when used by operators.

It is ideal for protection from dust and aerosols: $\Delta P < 2.9 \text{ mm H}_2\text{O}/\text{cm}^2$ in accordance with the EN 14683 standard (differential pressure: surgical mask breathability rating). Built-in nose bridge.

Classification:

Medical Device Class I
EN 14683: Type IIR
ASTM F2100: Level III

Colours:

Black, green, light blue,
orange

Packaging:

Box of 50 masks with an
"open/close" system.
Carton of 20 boxes

CE Type Ref: MONOART[®] FACE MASK PROTECTION 4

Monoart[®] Face Masks Protection 4 Sensitive

The Monoart[®] Protection 4 Sensitive Face Masks have been developed to offer total operational protection, but they also deliver the safety levels of hypo-allergenic materials which have been carefully sourced to respect sensitive skins and avoid the risk of irritation and dermatitis.

Made up of four layers of four different materials:

- Soft and colourful water-repellent NWF for optimal protection against dust, powder and residue.
- A particulate filter (PFE, Particle Filtration Efficiency) and a bacterial filter (BFE, Bacterial Filtration Efficiency) $\geq 99\%$.
- Improved hydrophobic layer for excellent fluid resistance: ≥ 160 mm Hg.
- Comfortable absorbent hypoallergenic cellulose layer in contact with the skin, for effective absorption of sweat and humidity.

Classification:

Medical Device Class I
EN 14683: Type IIR
ASTM F2100: Level III

Colour:

Light Blue

Packaging:

Box of 50 masks with an "open/close" system.
Carton of 20 boxes

CE Type Ref: MONOART[®] FACE MASK PROTECTION 4 SENSITIVE

Monoart[®] Face Mask Certifications

All the Monoart[®] Face Masks are class I medical devices , compliant with the ASTM F 2100 standards, according to the EN 14683 standard. Monoart[®] Protection 3 are Type II , while Monoart[®] Protection 3 Floral, Protection 4 and Protection 4 Sensitive Masks are of type IIR.

The resistance of the Monoart[®] Face Masks to the penetration of splashing liquids has been tested according to the ASTM F1862 standard, and is compliant, as requested by the European standard EN 14683, with the values below:

| Test | Type I | Type II - PTC3 | Typo IIR - PTC3 Floral, PTC4 and PTC4 Sensitive |
|---|--------------|----------------|---|
| Bacterial filtration efficiency (BFE) (%) | ≥ 95 | ≥ 98 | ≥ 98 |
| Differential pressure (Pa/cm ²) | < 29,4 | < 29,4 | < 49,0 |
| Splash resistance pressure (mm Hg) | Not required | Not required | ≥ 120 |

Why use the face mask?

The face mask offers protection from the chemical substances used during surgery and reduces the risk of contamination from viruses and bacteria that can cause infections in both professionals and patients.

How to use the face mask correctly?

The mask must adhere well to the face and remain dry at all times.

When to change the face mask

The mask must be changed if it is exposed to nebulised substances, or if it gets wet, and in any case for each patient treated.

Monoart[®] Saliva Ejectors EM15

Practical

The copper-clad wire is integrated in the tube to keep it at the set angle and ensure it won't protrude when bent.

Safe

Made of non-toxic PVC without DOP and phthalates, Class II a Medical Devices with no expiry date.

Comfortable

With rounded fixed or removable tips that won't irritate mucous membranes.

Monoart[®] Saliva Ejectors EM15

Disposable, flexible saliva ejectors made of non-toxic, transparent PVC. The integrated metal wire perfectly holds them at the required angle and never protrudes during the bending process. Fixed or removable rounded tips are ideal for work on irritated mucous membranes.

Colours:

Blue, blue lagoon, burgundy, green, lilac, lime, pink, orange, transparent, yellow

Packaging:

Bag of 100 pieces
Carton of 50 bags

Monoart[®] Adapter for Saliva Ejector

Safe, practical and autoclavable adapter for saliva ejector. Can be sterilized in autoclave at 134°C.

 **CE Type Ref:** ADATTATORE PER SALIVA, ADAPTER POR SALIVA EJECTORS, ADAPTER FÜR SPEICHELSAUGER

Classification:

Medical Device Class II a

Packaging:

Bag of 10 pieces

Monoart[®] Disposable Latex Gloves

Safe, comfortable and durable: Monoart[®] disposable latex gloves provide hygienic, comfortable protection for hands. They are easy to wear, stretchy and guarantee outstanding tactile sensitivity. In addition, the rough micro-texture on the surface gives superb grip in all conditions, so they are ideal for working with complete peace of mind during operations of all kinds. Monoart[®] latex gloves come in a range of bright colours to give a unique look to every dental practice.

 CE Type Ref: MONOART[®] LATEX GLOVES

Classification:
Personal Protective
Equipment - Category III

Available sizes:
XS, S, M, L

Colours:
Lime, blue, lilac, pink

Packaging:
Box of 100 gloves
Carton of 10 boxes

Safe

They provide an exceptional protective barrier against contamination and infection and they do not contain lubricant powders, chemical residue and endotoxins, which are often responsible for the respiratory symptoms caused by latex.

Certified

They comply with strict quality control criteria. They are certified in accordance with the international directive UE 2016/425 and with EN ISO 374-1, EN 374-4, EN ISO 374-5.

Durable

They are water, acid and alkali resistant and they provide good protection against micro-organisms and the majority of caustic substances and cleaning products.

Monoart[®] Nitrile Gloves

The Monoart[®] disposable nitrile gloves, conceived as an alternative for users allergic to latex proteins, provide an exceptional protective barrier against contamination and infections. They offer extraordinary mechanical and chemical resistance, making them suitable for all those situations in which there is a risk of perforation, cuts, piercing or handling particularly aggressive chemicals. The quality materials also guarantee excellent tactile sensitivity, while the micro-rough texture ensures excellent grip in all conditions.

 CE Type Ref: MONOART[®] NITRILE GLOVES

Classification:
Personal Protective
Equipment - Category III

Available sizes:
XS, S, M, L

Colours:
Black

Packaging:
Box of 100 gloves
Carton of 10 boxes

**Monoart[®]
Towel Up!**

Monoart® Towel Up!

Monoart* Towel Up! disposable towels are made of pure cellulose which is highly absorbent. It is embossed and bonded with a waterproof polyethylene film. Thanks to the innovative packaging with a resealable open/close system, the towels are handled one at a time and they stay protected from dust and contamination, for maximum hygiene and highly practical use.

Colours:

Black, blue, blue lagoon, burgundy, green, grey, light blue, lilac, lime, pink, orange, yellow, white
