

# SV2

## Hospital Bed

### Customisable to fit your needs

Creating a hospital bed like our SV2 takes collaboration. By working with medical professionals like you all over the world, we are delivering a high-quality bed you can customise to your specific needs.

The SV2 is a feature-rich, value-driven bed that includes electronic controls with convenient, one-touch button positioning for both you and your patients, a low bed indicator, mobile headboard, optional fifth wheel, optional under-bed lighting and much more.

#### Fold-down siderails

Designed to simplify patient exiting, fold-down siderails enhance security by fully covering and minimising entrapment gaps. This allows ease of use for caregivers by tucking away with only one hand.

#### Double regression backrests & knee gatches

backrests and knee-gatches are designed to help reduce displacement of the patient.

#### Mobile headboard

Easily adjustable bed height is designed for a more ergonomic positioning for caregivers.

#### “Always-on” underbed light

Designed to help make patient mobility easier by offering patients better sight during the night when exiting the bed.

#### 250kg safe working load

Assists in accommodating heavier patients.

#### Translucent backrest with cassette carrier

Designed to accommodate imaging needs (optional).

A healthcare professional must always rely on his or her own professional clinical judgment when deciding whether to use a particular product when treating a particular patient. Stryker does not dispense medical advice and recommends that healthcare professionals be trained in the use of any particular product before using it. The information presented is intended to demonstrate the breadth of Stryker product offerings. A healthcare professional must always refer to the package insert, product label and/or instructions for use before using any Stryker product. Products may not be available in all markets because product availability is subject to the regulatory and/or medical practices in individual markets. Please contact your Stryker representative if you have questions about the availability of Stryker products in your area. Stryker Corporation or its divisions or other corporate affiliated entities own, use or have applied for the following trademarks or service marks: Stryker. All other trademarks are trademarks of their respective owners or holders. For more information please contact your local Stryker sales representative.

#### Low bed indicator

clearly indicates to caregivers when the SV2 is in its lowest position.

#### Nurse control pendant

Foot end location designed to allow easy access for caregivers and minimise patient disruption.

#### Smart egress

One-touch button brings the bed surface to it's exiting height.

#### Fifth wheel mobility

Enhances manoeuvrability, designed to make steering easier.

#### Standard features

- Battery backup
- Linak DC motors (for quiet operation)
- Manual CPR on both sides of backrest
- Electric lift
- Electric legrest
- Electric backrest
- Lockable and tuck-away siderails
