

Reduce Waste Volume by Up to 50%

Lower Waste Collection Costs

SpaceBin Multi is a portable, battery-powered waste compaction system designed to **reduce everyday waste volume by up to 50%**. By compacting general waste directly into standard 660L and 1100L bins, SpaceBin helps businesses cut waste collection frequency, minimise overflow and keep work areas clean and safe. Ideal for shopping centres, retail stores, commercial kitchens, motels, warehouses and any site needing a **simple, low-maintenance waste-reduction solution**.

What Sets SpaceBin Apart

- ✓ **Suits 660L & 1100L bins**
Handles paper, plastics, food scraps & soft cardboard
- ✓ **Portable & lightweight**
Easy to wheel to any location
- ✓ **Fully guarded design**
Safe for staff use
- ✓ **Dual emergency stops**
Monitored, dual-contact switches
- ✓ **No hydraulics**
Clean, leak-free and low maintenance
- ✓ **Smart control system**
Powered by StarLogix technology
- ✓ **LED status display**
Shows cycle progress, battery charge and low-power alerts
- ✓ **12V Battery Operated**
No external power supply required
