

Tenso[®] LS-CT32

Composite Battery
Powered Strapping Tool
19mm - 32mm

#61850

The LS-CT32 is a heavy-duty, reliable, and efficient strapping tool for your packaging, shipping, or logistics business. Our tool is designed to tension and cut poly woven cord or composite strapping to create a tight pack, providing consistent and reliable tensioning for both composite and woven cord strapping in widths ranging from 19mm to 32mm.

Features

- Max tension: 800daN.
- Six tension control settings.
- Three pre-programmed tension modes.
- Fits 19-32mm width, 0.85-1.65mm thickness.
- Single-handed operation: Automatic tension.
- Programmed touch panel: Auto, semi, manual.
- Quick Reverse Button: Tool removal.
- Lightest: 3.6kg with battery.
- 6-degree handlebar angle.
- Low center of gravity.
