

## Revolutionary deck system gives you superb performance

With the BR752 everything can be done by just moving the steering wheel; as the machine turns, so too does the deck. Together with the “intelligent” squeegee - which perfectly covers the scrubbing track without leaving traces - the Nilfisk concept delivers superb cleaning performance. This solution is so efficient that side skirts are no longer needed. The scrubber offers super low noise levels, ergonomics and a compact design that allows you to clean anywhere anytime. Further the Nilfisk Ecoflex green-cleaning system controls the consumption of water, detergent and energy so effectively that real savings can be gained without compromising on performance.

- Sliding deck concept; maximum comfort and performance, minimum efforts and maintenance
- Squeegee concept; a stable and reliable squeegee for the best pick up performance
- The optional Ecoflex™ system minimises the environmental impact without compromising performance
- Ergonomic steering wheel concept with all working functions fully integrated
- Patented automatic speed control that significantly increases operator safety
- Super compact design makes cleaning of restricted space areas fast and easy
- Low noise mode makes daytime cleaning and cleaning of noise sensitive areas viable
- Eligible for 3 year warranty (conditions apply)
