- Choice of standard and custom configurations
- Supplied pre-plumbed
- Vandal resistant timed flow tapware
- Integrated base plates for mounting

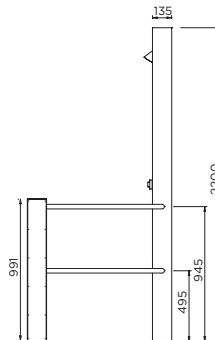

BQBS-3P-1H-2F

INSTALLATION NOTES

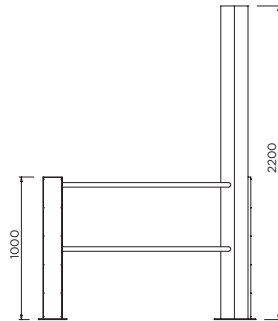

1) Columns are secured to ground via mounting plates integrated into the bases of the columns. 2) Refer to drawing for sizes and positions of fixing points. 3) Water inlets enter columns via opening in base. Water connection to timed flow taps is via 1/2" flexible connectors (supplied). 4) Water pressure to 1/2" connectors: Min=300kPa, Max=500kPa. 5) Water connections for tapware can be accessed by removing access panels in the columns. 6) Additional removable panels are integrated into the top of the columns to provide access to shower heads.
