Trademaster®

WORK CENTER SOLUTIONS

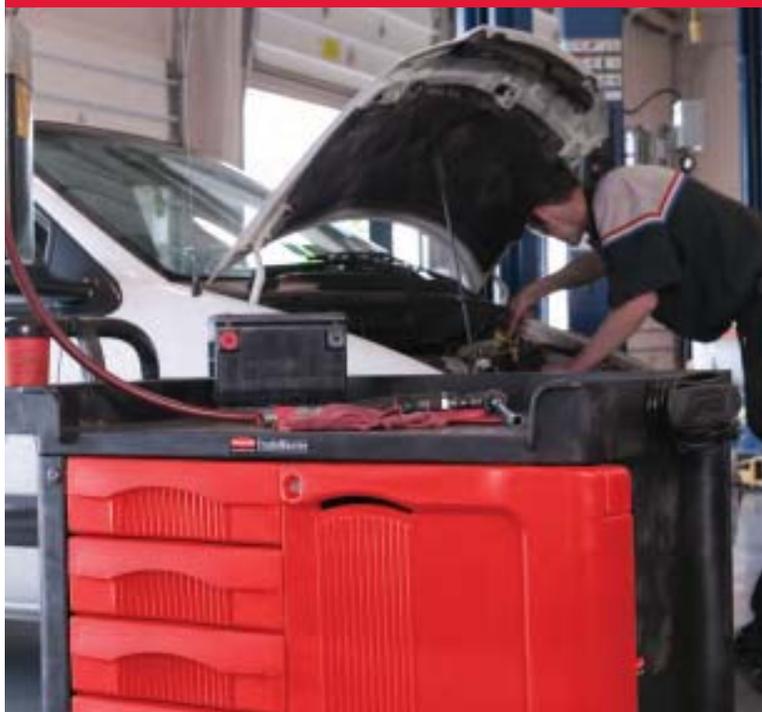

SAVE TIME, SAVE MONEY, WORK SMARTER.

Manufactured to Rubbermaid's highest standard of functionality and durability, Trademaster® work centers streamline the work flows for maintenance, manufacturing, and other tool and part intensive tasks.

- Rugged commercial-grade structural foam construction supporting up to 750 lbs*
- Built-in, 3 outlet, surge protected power strip with 15' cord and cord wrap
- Molded-in storage compartments and cup holder for extra convenience
- Easy-grip angled handle and lighter cart weight minimize strain
- Full-extension, ball bearing slides
- 5" non-marking casters with full brake
- Assembles in three easy steps

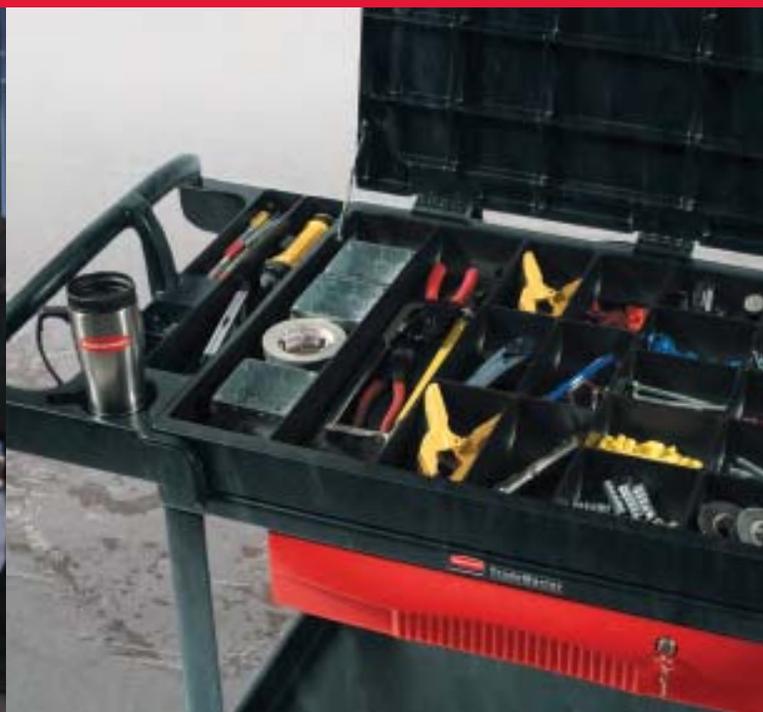

CORROSION-RESISTANT, HIGH CAPACITY

SAVE TRIPS, SAVE MONEY

ORGANIZED AND PROFESSIONAL

LARGE SECURE STORAGE

PERFORMS BETTER THAN METAL

Structural foam performs better than metal in many ways: it won't dent; it is non-conductive and doesn't corrode. Structural foam resists fatigue far better than metal. It requires no painting, is quieter than metal, and gives us greater design flexibility.

GREATER SECURITY AND VERSATILITY

The ability to lock both the cabinets and the drawers ensures that your tools are safe, even if you need to leave the job before it is completed. The adjustable shelf,[†] which can accommodate almost any tool, allows greater flexibility.

INCREASE EFFICIENCY

Our mobile work surface and storage reduces the number of trips required to transport supplies and tools to a job. The molded-in perimeter of the work surface helps reduce tool breakage due to falls.

RUBBERMAID ADVANTAGE: STRUCTURAL FOAM

Structural Foam is a method of producing plastic that introduces gas into the molding process. The resulting material has a swirled appearance, and if you cut into a Structural Foam product, you should be able to see tiny cells, or gas pockets. This fine network of cells, created by the gas displacing the plastic, yields a strong, lighter product.

10-20% LIGHTER

The Structural Foam molding process produces a piece that is 10% – 20% lighter compared to traditional rotational-molded plastics with equivalent wall thickness. The lighter Structural foam is just as strong as rotational-molded plastic, but does not need metal frames for reinforcement.

NOT ALL STRUCTURAL FOAM IS CREATED EQUAL

When creating Structural Foam, gas can be introduced to the mold in multiple ways; the right technique depends on product size, complexity and other factors. There is an art to creating the right cell structure for a given product, and Rubbermaid Commercial Products has perfected techniques that consistently produce strong and durable results.

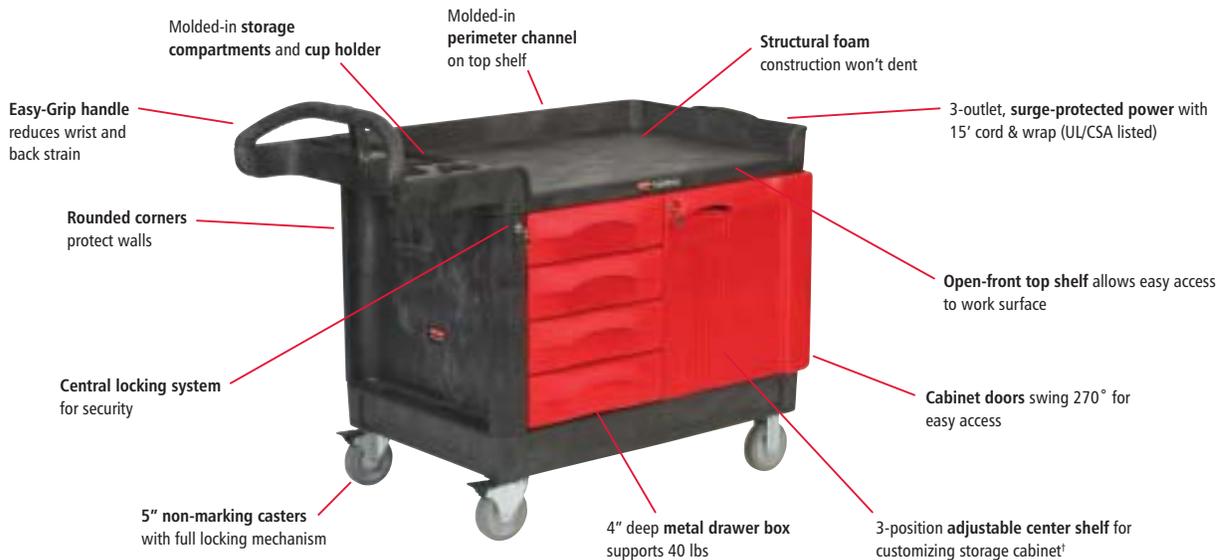

MAINTENANCE-FREE

Trademaster[®] work centers are manufactured from structural foam, making them rugged, durable, and maintenance-free. The rounded corners and non-marking casters prevent unnecessary damage to your facility.

* Check specification for model weight limits.

The Right Tool For Any Job

4512-88
2-Door Cabinet Small
41⁵/₈" x 18¹/₄" x 38³/₈"
(105.7 cm x 46.4 cm x 97.5 cm)
500 lbs (226.8 kgs)

4513-88
4-Drawer Cart
40³/₈" x 18³/₈" x 38³/₈"
(103.2 cm x 46.7 cm x 97.5 cm)
500 lbs (226.8 kgs)

4532-88
2-Door Cabinet Large
49" x 26¹/₄" x 38³/₈"
(124.5 cm x 66.7 cm x 97.2 cm)
750 lbs (340.2 kgs)

4533-88
4-Drawer and Cabinet Small
49" x 26¹/₄" x 38"
(124.5 cm x 66.7 cm x 96.5 cm)
750 lbs (340.2 kgs)

4534-88
8-Drawer Cart
48" x 26³/₈" x 38¹/₄"
(121.9 cm x 67 cm x 97.2 cm)
750 lbs (340.2 kgs)

4535-88
Professional Contractor's Cart
52¹/₈" x 30⁵/₈" x 37¹/₈"
(133.4 cm x 77.8 cm x 96.2 cm)
500 lbs (226.8 kgs) — Includes Contractor Top

4548-88
4-Drawer and Cabinet Large
58⁵/₈" x 26³/₈" x 38¹/₄"
(148.9 cm x 67 cm x 97.2 cm)
750 lbs (340.2 kgs)

7734-88
5-Drawer Mobile Work Center
32⁵/₈" x 19¹/₁₆" x 33¹/₂"
(77.5 cm x 51.4 cm x 85.4 cm)
250 lbs (113.4 kgs)
