

Purelite **Xstream** **LIGHTWEIGHT BATTERY POWERED AIRSHIELD**

Woodworking and timber preparation - for protection against dust, flying particles, and preservatives

Food preparation and processing – for protection against powder inhalation and mixing splashing

Laboratory procedures - protecting against ingestion and inhalation, and splashes to the face and eyes

Agrochemical industry - the application of fertilisers and pest control treatments, harvesting and packing

The new Purelite Xstream is a self-contained lightweight Powered Air Purifying Respirator (PAPR) providing all-in-one respiratory protection against dust, fumes and particulates, combined with eye and face protection against impact and liquid splash.

The integrated re-chargeable nickel metal hydride (NiMH) battery pack delivers a supply of clean air via a pair of high efficiency P2 particulate filters for up to 8 hours of continuous use.

There is no need for separate eye, face, and respiratory protection - the Purelite Xstream provides these safety requirements in one easily donned unit, combining comfort and economy.

**INTEGRATED EYE, FACE
AND RESPIRATORY
PROTECTION THAT IS
EASIER AND MORE
COMFORTABLE TO WEAR
THROUGHOUT THE
WORKING DAY**

- Certification Respiratory Protection AS/NZS 1716:2003 Class P2 and BS EN 12941:1999 TH2P
Certification Eye/Face Protection AS/NZS 1337:1992 and BS EN 166:2002
- Low noise fan motor provides initial rate airflow of 210 lpm (150 lpm minimum at end of battery life). Low battery audible alarm.
- Lightweight 1.0kg (nominal) with easily adjusted headband to fit range of head sizes and for wear over protective clothing and hoods.
- Polycarbonate faceshield with nylon elasticated faceseal-tinted and clear overlays are available for the faceshield.
- On-off switch easily operated with gloved hand.
- High efficiency P2 filter with Assigned Protection Factor (APF) of 20.

- Air flow indicator pre-checks battery and filter performance and condition
- Wide range of applications including - woodworking and pottery, craft design and technology, DIY and building maintenance, food preparation and processing, fitting and application of insulation, dental laboratories, horticulture and pest control
