DRY SMARTER WITH VELO

ABOUT US

VELO hand dryers is a division of HPA Group, an Australian family owned business that has been operating in Sydney for approximately 25 years.

We import and distribute a wide range of state-of-the-art European engineered and manufactured hand dryers to suit a wide variety of environments in the Australasian market. VELO hand dryers are designed by Europe's leading laboratories to ensure the highest level of quality, reliability and energy efficiency.

At VELO hand dryers our products are designed to meet the needs of a different kinds of businesses including distributors, contractors, architects and end users.

From the low cost, quiet KAI to the exclusive, VELTIA models we have a hand dryer that will suit all of your requirements. Each VELO hand dryer has a sleek modern design, are extremely cost effective and come with a generous warranty ranging between 5-7 years.

Our VELO electric hand dryer range offers up to 95% savings when compared to the cost of using paper hand towels and savings of up to 70% in energy costs over other conventional hand dryers.

For more information please give us a call today on 1300 HPA GROUP or email us sales@velohanddryers.com.au.

WHY VELO HAND DRYERS?

VELO stock the highest quality European engineered & manufactured hand dryers. We have one of the largest selections of hand dryers to suit all environments.

High performance - Velo hand dryers have some of the fastest drying times around the world.

Lower running costs - Up to 95% less than paper towels per year.

Less energy - Up to 80% less energy.

Low noise - Noise levels as low as 60 dba.

Hygienic - Microban anti-bacterial protection & HEPA filter removes over 99.9% of bacteria from air.

Odour neutraliser system - Kills all bad smells in the bathroom.

Ionshield technology - Air purification system.

Dual power settings.

Dual air outlets.

Recyclable hand dryer components.

Tough & durable.

5-7 Years Warranty.

Engineered & manufactured in Europe.

Variety of colours (Bigflow / Fuga / Veltia).

GREEN STATEMENT

Velo hand dryers provide customers with economic and environmental savings by conserving energy consumption with fast dry times and keeping paper towel waste out of landfills. Paper towel production requires natural resources and constant restocking which increases the carbon footprint.

Today, our Fuga and Veltia dryers help energy-conscious businesses and other public and private institutions qualify for valuable LEED (Leadership in Energy and Environmental Design) credits while showing their customers, visitors and employees that the environment matters.

Less Energy - Fast dry time and no heating element means Velo hand dryers use up to 85% less energy than warm air hand dryers.

Lower Running Costs - Up to 95% less than paper towels per year.

Approximately 60% recycled materials used in construction.

VELTIA FUSION SERIES

PRODUCT CODE: **01871**

DESCRIPTION

VFusion is the new revolutionary hand dryer that operates in two different speeds, TURBO or ECO mode. The VFusion works with an automatic laser sensor and provides very fast hand drying from 6 seconds.

VFusion has two types of nozzles:

Multi Jet: Multiple holes to distribute the air evenly across your hands.

Blade: Air is focused in one zone on your hands.

VFusion includes a zero smell omission system and HEPA filter (removing 99.97% germs and bacteria).

VFusion is very suitable not only for public restrooms but for also for hotel rooms, being the perfect substitute for towels.

VFusion can be installed in private bathrooms of hotel rooms, as both air outlets are patented with the ADS (Acoustic Dampening System), producing a quiet sound, similar to that of a hair dryer.

-  CHOICE OF TWO POWER SETTINGS: TURBO OR ECO
-  CHOICE OF 2 AIR OUTLETS - BLADE AND MULTI JET
-  6 - 12 SECONDS HAND DRY TIME
-  LOW ENERGY USE: 600-833 W
-  LOW NOISE
-  ACOUSTIC DAMPENING SYSTEM
-  AUTOMATIC OPERATION LASER SENSOR
-  VANDAL PROOF ABS POLYMER
-  HEPA FILTER
-  ZERO SMELL GEL FRAGRANCE SYSTEM
-  EXTENSIVE COLOUR RANGE
-  5 YEAR WARRANTY

VELTIA V-JET

PRODUCT CODE: **01304**

An innovative 300 jet distribution system which is strategically placed to remove the water from both sides of your hands. This patented technology eliminates water from ending up on the floor.

The V-Jets water drainage system ensures that any excess water is collected in a tank located at the bottom of the unit keeping bathrooms clean and hygienic. Inbuilt Smart Diagnosis Technology (SDT) notifies the user via LED and sound when HEPA filter and water tank maintenance is required.

Protection comes in the form of Microban. Built into the dryer at the point of manufacture, Microban provides continuous protection from microbes. Microban technology gives an added level of defence against the growth and transfer of harmful bacteria.

Active when the Veltia dryer is in use, ZeroSmell (odour neutralising system) not only neutralises bad odours within the surrounding area, but leaves a pleasant fragrance which increases the user's experience and perception.

The Veltia is equipped with the new H12 Hepa filter which is one of the most effective air cleaners on the market, thanks to its high efficiency and effectiveness of its results, that removes 99.95% of airborne pollutant particles.

-  **300 NOZZLES JET DRY**
-  **10-15S HAND DRY TIME**
-  **LOW NOISE**
-  **LOW ENERGY USE**
-  **EMBEDDED MICROBAN ANTI-BACTERIAL SYSTEM**
-  **HEPA FILTER**
-  **ODOUR NEUTRALISER SYSTEM**
-  **WATER DRAINAGE SYSTEM**
-  **SMART DIAGNOSIS TECHNOLOGY**
-  **VANDAL RESISTANT ABS**
-  **EXTENSIVE COLOUR RANGE**

THE WORLDS MOST HYGIENIC HAND DRYER

VELTIA TRI-BLADE

PRODUCT CODE: 01306

NOW WITH ION TECHNOLOGY

3 blades of air, strategically placed to not only dry your hands in 6-8 seconds, but more importantly limiting the amount of water on the floor. The Tri-Blade was designed for those who require a blade type next generation hand dryer with the same classic design and colour range as the Veltia V-Jet.

The new Veltia Tri-Blade has in built ion technology which makes it one of the most revolutionary and hygienic dryers on the market. The ion generator purifies the air by emitting millions of negative ions that combat harmful bacteria, mites and odours.

The Veltia's water drainage system ensures that any excess water is collected in a tank located at the bottom of the unit keeping bathrooms clean and hygienic. Inbuilt Smart Diagnosis Technology (SDT) notifies the user via LED and sound when HEPA filter and water tank maintenance is required.

Protection comes in the form of Microban. Built into the dryer at the point of manufacture, Microban provides continuous protection from microbes. Microban technology gives an added level of defence against the growth and transfer of harmful bacteria.

Active when the Veltia dryer is in use, ZeroSmell (odour neutralising system) not only neutralises bad odours within the surrounding area, but leaves a pleasant fragrance which increases the user's experience and perception.

The Veltia is equipped with the new H12 Hepa filter which is one of the most effective air cleaners on the market, thanks to its high efficiency and effectiveness of its results, that removes 99.95% of airborne pollutant particles.

CONCEPT 3 SERIES

PRODUCT CODE: 01901

DESCRIPTION

The Concept3 is a revolutionary addition to the Velo collection. It unifies in one single body a total of three functions; liquid soap dispenser, hand wash and hand dryer. The newly developed, striking and unique concept is an absolute world's first, with an innovative design that exceeds all expectations for commercial washrooms.

The characteristic ring design feature of the Concept3 project conceals the three main functions of cleaning, washing and drying that are activated independently by means of integrated sensors. This enables users to operate the unit without the need of moving your hands, thus saving time and energy. Most importantly it creates a safer and more hygienic bathroom environment.

The modern and minimalistic design features of the Concept3 project enable it to be the ideal solution for hospitality or high end projects.

Bathroom sink set with hand dryer, soap dispenser and tap all in one with electronic sensor.

Anodized aluminum.

Housing made of a single piece of anodized aluminum 1.2mm thick.

Electronic infrared sensor for the hand dryer/ soap dish/faucet when the hands are removed from range.

Available in black, gold and titanium finishes

Robust, anti-vandalism and safe from sharp edges

 DURABLE AND RESISTANT TO CORROSION
