

BAILEY®

STAIRWAY LADDER

Bailey's Range of Aluminium Stairway Ladders offer safety, stability and strength in a compact ladder solution. Encompassing the stairway like design, users can walk up and down the ladder with ease. The product folds to a compact profile for easy storage in confined locations. Available in two configurations - with and without folding handrail.

- Portable unit with quick set-up function
- Conventional Stairway climbing configuration for ease of access
- Incorporating wide, slip resistant treads for maximum stability
- Lightweight yet durable aluminium construction
- FS13750 - FS13753: Folding handrail for increased stability, easy storage and transport
