E-TRAVELLER 140 CARBON

FOLDING ELECTRIC WHEELCHAIR

The E-Traveller 140 Carbon is a lightweight electric wheelchair made from carbon fibre that weighs just 17kg when the batteries are removed. An easy-folding mechanism makes this wheelchair ideal for frequent transport, either in the boot of your car, on a plane or on public transport. The Carbon is ideal for use in tighter confined areas as it has an unmatched turning circle.
