## THE DROVER PORTABLE BOOTH

The MN Drover is a ventilated and illuminated spray booth with complete portability. Specifically designed for mobility, the flexible MN Drover is perfectly suited for small scale painting, preparation or dust and fume extraction.

The MN Drover is designed, manufactured, and tested to comply with current Australian standards AS4114 and relevant EPA and OHS guidelines. This is achieved through the 4-stage recirculating filtration process. The extracted air is filtered by 3D Polycomb paint pocket exhaust filter, Activated Carbon exhaust filter, S10 pre-Inlet Filter and finally 600G inlet filter before being brought back into the Drover's cabin.

### Sizes:

#### Standard

Work area: 3150mm(wide) x 2100mm(high) x 1300mm(deep)  
Overall: 4500mm(wide) x 2300mm(high) x 1300mm(deep)

#### Wider

Work area: 3000mm(wide) x 2100mm(high) x 1500mm(deep)  
Overall: 4350mm(wide) x 2300mm(high) x 1500mm(deep)

#### Taller

Work area: 3150mm(wide) x 2300mm(high) x 1300mm(deep)  
Overall: 4500mm(wide) x 2500mm(high) x 1300mm(deep)

### Completely Portable

The wheelable unit can be positioned and repositioned anywhere in the facility without concern for roof penetrations.

### Environmentally friendly

The 4-stage filtration process is second to none in air purification removing, over spray, contaminate particle and odour.

### Multipurpose

The MN Drover can be used as a spray-painting facility, preparation zone and fume extractor.

### Plug and Go

The Drover eliminated the need for electrical connection with its single 3 phase plug in.

### Proudly owned and manufactured in Australia.

MN Spraybooths are the only Australian manufacturer certified by AMAG.
