RF-C5B Cordless Hydraulic Stud Puncher

Innovators in Precision Steel Frame & Stud Punching Tools

The RF-C5B cordless hydraulic stud puncher is designed to punch 25.4mm, 28mm, 32.2mm & 34.1mm Diameter holes in steel frame trusses for electrical grommets and installations.

Made in Japan, Kamekura hydraulic hole punchers are precision manufactured tools giving a life time of reliable service to any tradesman requiring to penetrate holes in sheet metal, stainless steel, copper, brass and aluminium.

Kamekura hydraulic equipment is extensively used in fields such as Electrical Switchboard Manufacturing, Plumbing/Sink-Ware Distributors and Manufacturers, Plant System Operations, Building/Construction Industry and General Sheet Metal Workshops.

Portable & Lightweight for On-Site Work

Stainelec Hydraulic Equipment

Address;

Unit 5/9A Lyell Steet Mittagong NSW 2575 Australia

RF-C5B Cordless Stud Puncher Specifications

SPECIFICATIONS

- Maximum thickness; 3.2mm mild steel
- Motor; Hitachi 18 Volt Lithium Ion battery (3A/Hr)
- Output; Develops 9.5Ton hydraulic output
- Weight; 6.4kgs
- Punching Capacity; 20mm Diameter (3.2mm Mild Steel) 25.4mm to 34.1mm Diameter (2mm Mild Steel)

Operation is fast and easy to use;

- 1. Press button on handle to rotate bottom die 90°
- 2. Rotate bottom die
- 3. Turn handle clockwise for bottom die to return to centre-position
