

ELECTRIC E619

HEALTH AND SAFETY

Minimize your risk

Perfect for

Warehouses
Wholesalers
Manufacturers
Distribution Centres
Retail Stores
Supermarkets

Minimize your waste of time, space and money

- Very low noise level
- Convenient operating height
- Compacts most material, like paper, cardboard and soft plastic
- Can be moved by a pallet truck and placed near waste source
- Very reliable, proven long-lasting performance, even out-doors
- High compaction pressure and generous feed opening on minimum floor space

E619 with the unique self-lubricating worm drive (no hydraulic oil) is appreciated all over the world and a result of 50 years of designing and manufacturing balers.

The E619 is a silent-running electro-mechanical baler, fast, easy and safe to work with. It has a door magnetic safety switch and inductive sensors. Customized functions can easily be switched on/off. The unique construction gives this baler small dimensions, a large feed opening and good bale weight. Material that can be compacted is paper, cardboard, plastics etc. - profitable recycling with care for the environment.

Specifications

Bale weight	Plastic: <400 kg Cardboard: <300 kg
Bale size H x W x D (mm)	900 x 800 x 1500
Door Opening H x W x D (mm)	540 x 1450 x 800
Machine size H x W x D (mm)	2070 x 1915 x 980
Weight	1200 kg
Noise level	60 dB(A)
Pressing cycle time (sec.)	40 - 70
Degree of Compression	85-90%
Press force	25 tons
Power supply	3 x 400V / 32 Amp
Approved	CE, EN16500
