MEET THE MÖRSERMIXER

You asked, we listened. The Mörser Mixer is packed with innovation to suit you.

Faster emptying
Larger outlet improves overall speed whilst maintaining precise and safe emptying of the pan

Efficient Mixing Action

Mixing pan base tapered design helps mixing action and emptying

Extra Mixing Arm and Blade

4 mixer arm and blade for faster, more efficient mixing and easy adjustment.

Safety First

Extra safe due to the guarded mixer chute and cut-out switch when lid opened

European Design

Strong and rugged European engineering partnered with world class manufacturing.

Easy Bag Splitting

3 Serrated bag splitters on strong lid to speed up your filling process

Compact Design

Designed to fit through standard doors for on-site accessibility and convenience.

Easy Loading

Easy loading on ute or truck for individual person use/operation.

Large Wheels

Large Diameter wheels for improved mobility on stairs and uneven surfaces.

Adjustable Legs

The mixer legs are easily adjusted and set up on site

Use For

Screed mixing, grout mixing, adhesives, mortar, render, plasters, GFRc mixing rubber crumb

MACHINE SPECIFICATION

100 LITRE

Drum capacity: 100 litre

Mixing capacity: 100 litre

Motor: 1.1 kw

Weight: 115kg

Width: 72cm

Height: 114cm

RPM: 30

Product code 110v: 23-4000

Product code 240v: 23-4001

120 LITRE

Drum Capacity: 120 litre

Mixing capacity: 120 litre

Motor: 1.1 kw

Weight: 123kg

Width: 72cm

Height: 114cm

RPM: 30

Product code 110v: 23-4002

Product code 240v: 23-4003
