

General Description:

The Culinaire® Banquet Cart uses a unique heating system that incorporates gentle radiant heat. The gentle radiant heat prevents food from drying out, which can happen in standard designs or those with fan-forced circulation. There is no water required and because the food is retaining its natural moisture it maintains flavour and consistency.

With fully sealed interiors and concealed elements, the carts are hygienic and easy to clean.

Model:

Code: CH.CBC.2611

Code explanation:

CH = Culinaire Heated
CBC = Culinaire Banquet Cart
2611 = Capacity = 26 x1/1 GN pans or
 or 13 x 2/1 GN pans

e.g.: for specification and ordering

Culinaire: **CH.CBC.2611**

Features and Benefits:

- Mobile cart with gentle heating system utilising evenly heated aluminium internal panels for long term food holding capacity
- Venting system for holding moist or crisp product
- Removable silicone gasket to cabinet face for ease of cleaning and reduced risk of damage by trays and racks
- Full stainless steel interiors including easy clean-out base
- Sturdy stainless steel pull/push handles to both sides means cart can be easily moved by two staff together
- Supplied with plug and lead, with plug tidy to hold plug neatly in place when not in use
- Non marking bumpers to base, preventing accidental damage to the cart or walls and furniture
- Large non marking castors for easy manoeuvrability
- Easy open lockable handle
- Includes 4 x 2/1 GN sized chrome plated shelves and 13 pairs of tray slides
- Full digital controls with easy to see temperature readout compliant to HACCP standards
- 304 grade stainless steel construction throughout for exceptional longevity – unlike units with corrodible steel frames
