

Designer's Choice MF type Coverplate EJs

Designer MF: A 2 piece expansion joint cover system. It is intended for slab-on-ground applications. The DzMF is widely used in supermarkets & department stores. It has a 3mm edge height for integration with vinyl/vinyl tiles, but can be packed or installed in rebates to allow for ceramic tiles or polished concrete floor finishes. DzMF is purpose designed for *flush mounting* which overcomes the *horizontal impact* issues of surface-mount systems.
