

Bulk Bag Stand 1250mm

EW-BBS100

Bulk Bags are widely used as a cost effective, efficient and eco-friendly solution for storing and transporting bulk materials. Fully loaded, their size and weight require the right equipment to ensure the safe and productive handling of bulk bags in the workplace.

This Bulk Bag Stand range is designed to safely hook open a bulk bag for filling, saving time and costs. These stands provide an effective solution for collecting recyclable, industrial, excavation and site waste.

Features:

- Allows bulk bags to be held wide open for ease in filling
- 4 adjustable bag restraining chains provided to position bag at optimal height
- 8 adjustable height settings to suit larger bags
- Zinc finish
