

MAWBY HOOK

The Mawby Hook is a quick action trailer safety chain coupling to connect with safety chains when towing trailers up to 3.5 tonnes Aggregate Trailer Mass (ATM).

The Mawby Hook has been fully tested and provides a safe and secure connection between the vehicle and trailer/caravan up to 3.5 tonnes Aggregate Trailer Mass.

The product has been independently tested and complies with the Australian Standard AS 4177.4 - 2004 (Caravan and Light Trailer Towing Components - Safety Chains to 3,500kg capacity).

The product is not a lifting device - it is a chain connection device and is not required to comply with other Australian Standards dealing with lifting devices.

The shackle is compatible with safety chains used on vehicles towing less than 3.5 tonnes ATM and has identification marks so that it can be traced back to the manufacturer as required by Circular 0-1-3 Safety Chain Connection devices for road trailers which are up to 3.5 tonnes ATM - Issued by the Administrator of Vehicle Standards in consultation with the Australian Motor Vehicle Certification Board.
