

COROB CLEVERmix 700

Excellence in
gyroscopic mixing

Highlights

+DURABILITY

Reliable and strong working partner.

+PRODUCTIVITY

The best solution for high viscosity products.

OPERATOR FRIENDLY

Easy to use with minimum effort.

-SPACE

Minimum footprint, maximum business.

Know-how and field experience have been blended into the design of the COROB CLEVERmix 700, making it one of the most advanced gyroscopic mixer on the market.

Thanks to an intelligent control system, various mixing parameters can be customised such as clamping pressure, rotating speeds and mixing times to achieve the best results.

The extractable plate facilitates loading and unloading of any type of cans, even more when in combination with the optional automatic vertical sliding door.

COROB CLEVERmix 700 is equipped with a new power efficient motor with the same performance and lower consumptions.

ABOUT COROB.

COROB is a global technology leader in developing and manufacturing high-tech dispensing and mixing solutions for different applications including paints and coatings, inks and chemicals.

WE ARE WHERE YOU ARE. Our offering is supported by a global service network making COROB a total solution provider.

COROB CLEVERmix 700

Excellence in
gyroscopic mixing

Technical data

Volume output	Medium & High
Type	Fully automatic gyroscopic mixer
Max can weight [kg] (lbs)	40 [88]
Can size [mm] (in)	Height: min 100 (3.9), max 470 (18.5) Diameter: max 390 (15.4)
Can type	Round, square and oval. Multiple cans.
Mixing motor power [hp] (kW)	0,75 (0,55)
Door type	Sliding Shutter (default) - Automatic vertical sliding door - Hinge door.
Dimensions (WxDxH) [mm] (in)	805 x 782 x 1112 (31.7 x 30.8 x 45.3)
Footprint [m²] (ft²)	0,63 (6.78)
