# Euronda®

## It's all about protection

Euronda, synonymous with outstanding protection in the medical field for over 40 years. With an Italian origin and an international vocation, it has four branches operative and sells products in over 100 Countries worldwide. Euronda is one of the benchmark companies for infection control.

Production includes four specific product lines.

**Monoart®**, a wide range of disposable products, accessories and personal protective equipment that teams maximum product quality with vibrant colours. **Pro System**, the Euronda Total Protection System: a complete line of products to optimise the whole sterilisation process and make it safer. **Alle®**, line of disposable products that has been specially designed to create an uncontaminated sterile field for surgery, thus preventing the risk of infections. **Eurosteril®** is the Euronda line of pouches and rolls dedicated to sterilisation. All Euronda products guarantee maximum quality and protection standards for doctors, professionals and patients.

# Monoart<sup>®</sup> Contemporary Glasses

## New

Our Contemporary glasses offer the perfect combination of elegance, protection, comfort and style.

Lightweight and very strong, Contemporary glasses are the perfect protective solution for doctors and assistants.

The anti-fog treatment makes the lenses twice as effective against condensation, while the anti-scratch treatment is five times as resistant to abrasions.

All of this comes together with the exclusive, refined design, boasting a glossy black frame.

### Colour:

Transparent and black frame

### Weight:

29 g

### Iconic

A bold yet elegant design made distinctive by the balance of shape, colour and light.

### Lightweight

Made entirely from Nylon PA12 without any metal used, these are lighter and more comfortable as a result, even for prolonged use.

### Protective

The side lenses provide maximum protection.

## Comfortable

The patented SoftPad frame stems offer greater protection, stability and adaptability to the face and can be adjusted to three different lengths. The lenses in the orange models reduce eye fatigue.

## Resistant

Permanent Univet Double Coating prevents fogging inside the lenses (pursuant to requirement N of the EN 166 standard) and scratching outside (pursuant to requirement K of the EN 166 standard). No more scratches or fogging, for outstanding performance.

## Ergonomic

They are extremely light and have non-slip nose bridges. Versions for fitting over corrective glasses are also available.

# Monoart<sup>®</sup> Protective Glasses

Monoart<sup>®</sup> protective glasses for staff and patients are designed and made to combine maximum safety in every situation with exceptional comfort and stylish designs.

## Anti Scratch

Basic Anti-scratch treatment protects against scratches and abrasions.  
\*K Anti-scratch treatment

## Anti Scratch Plus

Anti-Scratch Plus treatment constitutes a barrier against surface damage, it protects against scratches and abrasions. It is certified according to the requirement of EN 166 "K".

## Anti Fog

Basic Anti-fog treatment that prevents the formation of condensation.  
\*N Anti-fog treatment

## Anti Fog Plus

Anti-Fog Plus treatment is a permanent treatment that prevents the formation of condensation. It is certified according to the requirement of EN 166 "N".

## Over-glasses

Can be positioned over any corrective glasses.

## Univet Double Coating

The revolutionary coating created through UDC technology provides to your eyewear superior resistance from scratches (outside the lens) and fogging (inside the lens) for outstanding performance in any working condition. Both anti fog and anti scratch treatments are permanent and assure to the product an highly superior performance to EN 166 standards.

## SoftPad technology

SoftPad is a patented terminal that has been added to the legs of the eyewear to offer comfort and protection. Thanks to the innovative use of materials and a meticulous design, the ergonomics of these glasses reach a new level of comfort, providing perfect stability to the safety glasses and full adaptability to the face of the user. In addition to the length adjustment in three positions, the SoftPad system has a further tilting movement that allows the device to perfectly fit the user's head.

## Orange lens

The orange lens protects against impacts, UV rays and blue light (525 nm). It improves contrast and enhances visual sharpness to reduce eye fatigue. Ideal for use during dental composite polymerization.

# Monoart® Cube Cube Orange Glasses

Over-glasses for staff with a cutting-edge design featuring a wrap-around square shape. Adjustable length temples guarantee an excellent comfort and memorise the desired shape of the user thanks to the SoftPad technology.

Available in two versions:

- **Cube:** cTransparent optically checked polycarbonate lens, providing a 180 degree view.
- **Cube Orange:** the orange lens protects against impacts, UV400 (sunlight) rays and UV25 blue light rays (polymerization lamps).

#### Colours:

Cube: white and blue frame

Cube Orange: black and orange frame

#### Weight:

37 g

# Monoart® Stretch Stretch Orange Glasses

The frame is designed to buffer the contact points between the glasses and the face. The ultra-flexible, sporty design is extremely twist proof. There is an eyebrow ventilation system and a wrap-around lens to give extra protection around the eyes. Available in two versions:

- **Stretch:** with heavy-duty, optically controlled transparent lens, protects against UV400 rays (sunlight).
- **Stretch Orange:** with heavy-duty, optically controlled orange lens protects against UV400 rays and UV525 rays (polymerization lamps).

#### Colours:

Stretch: white and blue frame

Stretch Orange: black and orange frame

#### Weight:

26 g

# Monoart<sup>®</sup> Evolution Evolution Orange Glasses

Glasses for staff and patients with a lightweight, modern design. The temples are made from over-moulded material and feature a memory system that keeps them in the desired shape. Equipped with a non-slip rubber nose bridge for maximum comfort. Available in two versions:

- **Evolution:** transparent lens made of heavy-duty polycarbonate that protects against impacts and UV rays.
- **Evolution Orange:** orange lens is made of heavy-duty polycarbonate that protects against impacts, UV rays and blue light (525 nm).

#### Colours:

Evolution: white and grey frame

Evolution Orange: black and orange frame

#### Weight:

37 g

# Monoart<sup>®</sup> FitUp Glasses

Enveloping glasses for operators, guaranteeing maximum protection and visibility. Complete with temples adjustable in length and tilt and a soft, non-slip nose bridge, FitUp glasses stand out thanks to their exceptional comfort and fit. High-strength lenses with anti-fog and anti-scratch treatment. Available in two colours: see-through green frame or see-through pink frame.

#### Colours:

FitUp Pink: transparent and pink frame

FitUp Green: transparent and green frame

#### Weight:

25 g

# Monoart<sup>®</sup> Light Glasses

Protective glasses for patients or operators, basic line with air ventilation system incorporated in the side protections. Single lens in optically checked polycarbonate: these protective glasses can be fitted over corrective glasses. The transparent colourless lens protects against impact and UV rays to guarantee optimal visibility conditions.

**Colours:**  
Transparent frame

**Weight:**  
43 g

---

# Monoart<sup>®</sup> Light Orange Glasses

Over-glasses for patients and staff with a single polycarbonate orange lens which completely covers corrective glasses. The length and angle of the temples can be adjusted. The temples are made from over-moulded material and they guarantee excellent fit and comfort. The orange lens with anti-fog and anti-scratch treatment protects against impacts, UV rays and blue light (525 nm). It improves contrast and enhances visual sharpness to reduce eye fatigue. Ideal for use during dental composite polymerization.

**Colours:**  
Orange and black frame

**Weight:**  
43 g

# Monoart<sup>®</sup> Zero Glasses

Boasting a minimalist design, these protective glasses for operators and patients stand out for being as simplistic as they are efficient and as light as they are resistant. Made entirely from polycarbonate, they are practical, easy to handle and highly comfortable thanks to the reduced-section temples. It is the lightest pair of glasses in the entire Monoart<sup>®</sup> range.

**Colours:**  
Transparent frame

**Weight:**  
19 g

# Monoart<sup>®</sup> Ultra Light Glasses

Protective glasses for staff and patients, with ergonomic, adjustable length temples, protection incorporated within the lens, a polycarbonate nose bridge and eyebrow protection. The colourless lens protects against impacts and UV rays to guarantee optimum visibility.

**Colours:**  
Pink and transparent frame

**Weight:**  
25 g

# Monoart<sup>®</sup> Baby Orange Glasses

Lightweight, easy-to-manage glasses for children. 100% polycarbonate, with black temples and an orange lens that protects against UV and UV525 (blue light) rays. Basic anti-fog treatment.

**Colours:**  
Orange and black frame

**Weight:**  
23 g
