

CR8ACP - PEDESTALS

Create Security manufactures a large range of pedestals to compliment any vehicle access system. The CR8ACP range of pedestals are designed for access control devices at drive-up and pedestrian access points. They can be used to house most access control devices such as card readers, swipe cards, intercoms, keypads, telephones and push buttons. All pedestals are designed for functionality, durability and quality.

The CR8ACP standard range of pedestals includes car height, truck height, dual car and truck height and wall mounted. The unique advanced technology built into all Create Security pedestals will guarantee your access control equipment is securely housed and supported to maintain optimal access management and control for the security of your premises.

Qualifications and Credentials

Create Security holds all mandatory statutory licences and our quality and standards are supported by ISO accreditation and industry memberships.

Experience

With over 25 years experience in the physical security industry, Create Security systems are designed by industry experts and are supported by exceptional service and skilled workmanship.

Safety and Performance

Create Security systems are engineered with a focus on quality, safety and performance for a solution customers can rely on.

Service and Maintenance

Create Security offers highly reliable 24/7 breakdown service and support. Create Security can service and maintain all brands.
