

C400

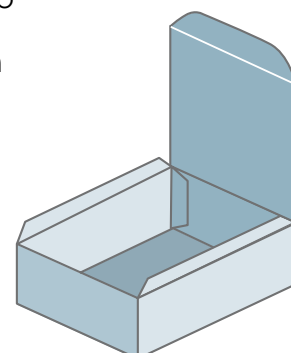

Forming Machine

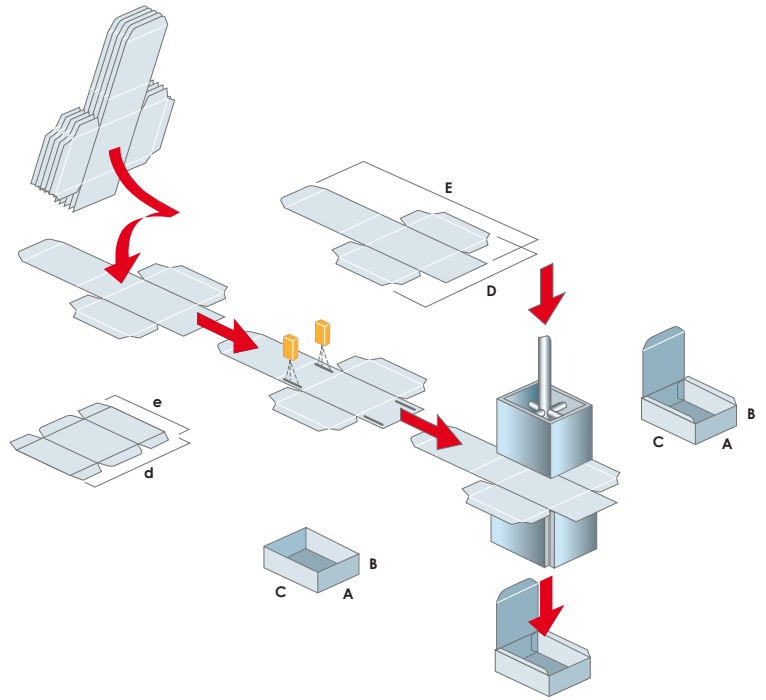

The **C400** is a compact tray forming machine. It uses flat blanks and can erect trays or boxes with a lid.

The machine is effortless to operate and maintain, with fast changeover mainly based on adjustments and forming tools replacement.

It can work as a stand-alone unit or connected to automatic loading and closing machine to obtain a complete line.

More than just packaging solutions

- *Extended, high-capacity flat-blank magazine;*
- *Stainless steel frame;*
- *Ink-jet, laser or embossing coding unit;*
- *Remote connectivity.*
