

Round, Square and Rectangular Tube Plugs

With their rounded edges, they are able to move easily over multiple surface finishes, from concrete to carpet.

Our large range of round, square and rectangular Tube Plugs in matt black polyethylene is suitable for use in metal tubing with various wall thicknesses due to their carefully designed ribbed walls.

They can be used in a wide variety of applications, from protecting tube ends, filling unused holes in sheet-metal or metal tubing, as chair leg tips, in fitness equipment or even in furniture such as computer desks.

They are used in various industries such as furniture, tubing, metal fabricators and steel frame housing.

We recommend that you take advantage of our free sample service to trial different sizes, ensuring the correct product is specified when an order is placed, thus saving time and money when you receive the right part the first time and every time.
