

# IPS e.max CAD restorations – quick and easy

## Programat<sup>®</sup> CS2

The ideal glazing and  
crystallization furnace  
for your practice

14:55<sup>min</sup>  
IPS e.max  
CAD<sup>[1]</sup>

# Intuitive and space-saving design for your practice

**Automatic double-range temperature calibration ATK2**  
Ensures consistently high-esthetic results

**Adequately large cooling tray**  
Provides enough space to place and cool restorations safely

**Open system**  
Pre-set programs for Ivoclar materials, additional storage space for custom programs

**Proven membrane-sealed keypad**  
Straightforward selection of key features

**Clear colour touch display**  
Simplifies navigation to the desired program

**OSD - optical status display**  
Operational status visible at a glance

**USB and LAN port**  
Easy installation of software updates

**Integrated firing tong holder**  
Required tools are close at hand

**Power saving key**  
Allows for power savings of up to 40% when in standby mode

## Crystallizing and glazing at the push of a button

The robust and compact Programat CS2 is the ideal entry-level solution for the fabrication of lithium disilicate restorations, such as those made of IPS e.max CAD. With the user-friendly furnace, you can easily and quickly crystallize and glaze directly in your practice.

Our vacuum pumps VP3 easy and VP5 ideally complement the Programat CS2. Its dual-valve technology allows for a noise-free and energy-efficient operation of the vacuum pump.

### Optimized for IPS e.max CAD

Crystallize in only 14:55 min<sup>[1]</sup>  
(speed crystallization)

Effortlessly achieve high-quality results with advanced firing technology

10 years warranty for IPS e.max CAD restorations

[1] Programat CS2, speed crystallization, approx. 14:55 min, IPS e.max CAD HT, MT, LT, IPS e.max CAD Crystall./Glaze Spray or polishing (Self Glaze), maximum two units; R&D Ivoclar, Schaan.

# Everything for your chairside treatments

## Consult

Inspire patients in advance  
of the treatment with Ivoclar Smile

## Prepare

Scan comfortably and  
efficiently with OptraGate

## Select

Rely on IPS e.max CAD,  
the world's best-selling glass-ceramic<sup>[2]</sup>

## Fabricate

Mill with the authorized milling systems  
of our long-standing cooperation partners

## Fire

Efficiently finalize in the  
Programat CS2 or Programat CS6

## Cement

Cement reliably and flexibly  
with Variolink Esthetic

## Protect

Reduce the bacterial load on high-quality  
restorations with Cervitec Plus
