

HD120-D

Heavy Duty Ride-On Industrial Sweeper

BUILT TO LAST

Boasting a wide 1200mm sweeping path, the HD120 industrial floor sweeper's superior engineering saves you time and effort. The self-levelling spring-loaded brush combined with the direct throw system creates consistent pressure allowing for a thorough clean across rugged or uneven surfaces.

The HD120 floor sweeper comes equipped with a high capacity vacuum fan in addition to a 250lt waste hopper bin capacity, making it one of the most efficient industrial cleaning machines on the market.

HD120-D

Strong and reliable, the HD120 is a ride-on power sweeper engineered from high-quality, powder-coated steel, making it suitable for heavy industrial applications.

Technical Specifications

HD120-D			
Cleaning Width	1200mm sweep path with main broom and one side broom	Variable speed	0-9Km/hr
Power Supply	3cylinder, 24HP water cooled, Kubota engine	Machine Dimensions	2080 (L) x 1250 (W) x 1450 (H)mm
Waste Hopper Bin Capacity	250L with hydraulic high dump	Weight	851kg
Filter Type	6m ² polyester filter		

Features & Benefits

1 DIRECT-THROW SWEEPING SYSTEM

Pitches debris directly into the hopper for efficient collection.

2 HEAVY-DUTY POWDER-COATED STEEL CONSTRUCTION

Built to withstand harsh industrial operating environments.

3 HYDRAULIC DIRECT DRIVE

Fewer moving parts help reduce potential maintenance concerns.

4 SELF-LEVELLING, SPRING-LOADED BRUSH

Maintains consistent cleaning pressure across uneven surfaces without manual adjustment.

5 ELECTRIC FILTER CLEANER

Simple switch activation automatically shakes dust from the filter into the waste hopper.

6 250L WASTE HOPPER WITH HYDRAULIC DUMP

Dump height of 1420 mm allows longer sweeping periods.

7 6 M² WASHABLE POLYESTER FILTER

Long-life filter lasting up to five times longer than filters in comparable machines
