RCM Approved
AS/NZS 61000.3.3.2012
Made in Australia

PRODUCT CODE: MED-RTU-WT

Indigo Care has an exclusive Wireless Wrist Pendant which is a combination of a wrist & neck pendant; two assistive technological products in one! Choose whether your resident wears it as a traditional wrist band or as a neck pendant, simply by removing the pendant from the wrist band and attaching the lanyard. This device is an excellent communication tool for times of distress or danger. The right choice of pendant, whether wrist or neck, can give both you and your residents more freedom and security. Easy to use and visually appealing. The pendant is water resistant to IP67 rating. The easy to press CALL button with braille is made of soft silicon. The pendant has a re-assurance LED light for nurse call and low battery warning to the RRU receiver.

The pendant has an exclusive ID encoded RF Transmitter which communicates with the Wireless Receiver Box (RRU) or the Call Point. It enables the resident to call for assistance anywhere in their room or ensuite without the need to move from their resting position. Simply program the Wrist Pendant to the RRU or Call Point by following the printed instructions or view our online tutorials.

The Kit includes: 1 Wristband Pendant, 1 Silicon Neck Band, 1 battery, 1 snap-joint lanyard

Note: Wrist Pendant is not suitable for use in a spa, sauna, steam, or any hydrotherapy area.
