

INTRODUCING THE ALL - NEW

# RANGER XP KINETIC

ULTIMATE EPS

## BUILT TO GO THE DISTANCE

Range varies based on a variety of factors, including the weather, cargo loads, terrain conditions, and driving habits. Here's what you can expect for the full-size electric **RANGER XP Kinetic Ultimate EPS** model based on some common use cases.

### PROPERTY MAINTENANCE **Up to 130** EST. KM\*

Property owners will enjoy the quiet operation and capability of the electric RANGER XP Kinetic. Property owners can expect a range of 130 km for moderate work like hauling wood, gardening, and shorter riding durations. Range will decrease in extreme cold or heat.

### FARMING & AGRICULTURE **Up to 130** EST. KM\*

The RANGER XP Kinetic is the hardest working SxS available with the most cargo box capacity, towing capacity, and pulling power. Farmers will experience closer to a 130 km range when performing light duty tasks like checking fences or irrigating, and less than all-day range if constantly hauling/towing heavy loads.

### HUNTING **Up to 115** EST. KM\*

Hunters will enjoy the quiet, fume-free operation for stealthy hunting trips. Hunters can expect closer to a 115 km range for trips to hunting spots in moderate weather climates. Range will decrease for hunting trips with elevation changes and extreme temperatures.

### RECREATIONAL RIDING **Up to 95** EST. KM\*

The RANGER XP Kinetic has more horsepower and torque than any other SxS, making it exhilarating for recreational riding. Range for rec riding is highly variable based on weather and terrain conditions, but extended periods of high speed and variable acceleration will limit the range compared to lower speed, constant acceleration.

\*Range estimates based on manufacturer data on typical customer driving usage and conditions. Actual range varies based on conditions such as external environment, weather, speed, cargo loads, rates of acceleration, vehicle maintenance, and vehicle usage.

WARNING: Polaris off-road vehicles can be hazardous to operate and is not intended for on-road use. Driver must be at least 16 years old with a valid driver's license to operate. All riders should always wear helmets, eye protection and protective clothing and footwear. Read, understand and follow your owner's manual. Ride within the limits of your own abilities and never engage in stunt or exhibition driving. Never ride under the influence of drugs or alcohol.
