## Leva Umbrella Range

### MakMax Architectural Umbrellas

#### CANTILEVER SUPPORT PERMANENT UMBRELLA

The cantilevered pole on the Leva range of umbrellas allows for maximised use of space. Ideal for applications where a central column is not practical, such as over a pool. The Leva is also perfect for alfresco dining applications, offering shelter without the need for a column through the table.

- » Leva umbrella models are available in two sizes - 2.7m and 3.2m.
- » Leva umbrellas are square.
- » Wind rated to 120km/hr.
- » Steel frame with 4-step powdercoat protection system.
- » Wall mounting, swivel boom and double canopy options available.
- » Installed as a permanent umbrella, Leva canopies can be closed in the event of severe weather.

**Design. Engineer. Fabricate. Install.**

## MakMax Leva Umbrella Range

### AESTHETICS & ACCESSORIES

- » Attention to detail in all aspects of product development means the finished product is architecturally pleasing and efficiently designed.
- » Range of colours, shapes, finishes, and branding possibilities.
- » Wide range of accessories available including;
  - Heaters and misters.
  - Lights and electrical connectivity.
  - Guttering.

### DESIGN & ENGINEERING

- » Leaders in outdoor umbrella design since 1985.
- » All products are certified by a practicing and accredited structural engineer.
- » Wind rated to suit location and wind category. (up to 44m/sec.)
- » Structural design is to AS/NZS1170.0, AS/NZ1170.1, AS/NZ1170.2, AS4100, AS3600 and AS1170.4.

### MEMBRANE

- » The tensile membrane canopy is fabricated from long-life, 100% UV stabilised, waterproof, architectural-grade PVC (coated polyester fabric with a PVDF finish to both sides).

### STEEL FRAME

- » The structure employs tubular steel components finished with a four-layer powdercoat protection system.
- » Choose from a wide range of steel powdercoat colours.
- » Standard, wall mounted, swivel/rotating boom or double boom columns are available.

### HARDWARE

- » Umbrellas canopy is tensioned with stainless steel under arm cables.
- » All hardware inclusive of nuts, bolts, washers, and rigging screws are stainless steel.
- » Arm end plugs are UV resistant nylon.
- » Top hats are spun aluminium with polyester powdercoat.

### MANUFACTURE

- » Complete manufacture and assembly in house means full control of product standards.

### DELIVERY

- » Capability to deliver product to any corner of the globe through an international network of affiliates.
- » Full service warranty and maintenance support.

PROTECTING
