

Transfer Stretcher | VSM-10

Why Buy?

Your rugged all-rounder

Get your patients wherever they need to be, safely, fast and fuss-free. From admissions to radiology, theatre to recovery, the Transfer Stretcher performs reliably in every environment. Precision-engineered from robust components, this versatile stretcher is built for round-the-clock performance in high-demand care settings.

- **Dual square column design** for exceptional strength and stability
- **Five-layer mattress** provides contoured comfort without adding bulk
- **Centre steer wheel and smooth roll casters** provide effortless control
- **Pop up push handles** can be used with patient sitting or lying flat

Application

Ideal for Day Surgery, Recovery, Transit Lounge & Cardiac

Key Benefits

- **Engineered tough:** VSM stretchers are constructed from premium, durable components to provide all-day, every-day ease of use.
- **Leading weight capacity:** The groundbreaking twin square column design is stronger than ever before, able to lift and support a class-leading 400kg/880lb (patient and accessories).
- **Supercharged:** The long-life, cordless, fast-charge battery system keeps things moving all day (and night).
- **Clean and hygienic:** The smooth, gap-free platform makes cleaning easy and prevents fluid ingress to meet the highest infection control standards.

Transfer Stretcher | VSM-10

Ultra-low height

Very safe and easy for patients to get on and off.

The 420mm/16.5" low platform height of this table takes away the requirement to use step stools or unnecessary heavy lifting. Sit and position your patient comfortably and then raise them to the desired work height with the touch of a button.

Head and foot tilt

A generous 15 degrees top tilt both directions.

Position a patient how you need them or quickly lower their head down (and feet up) in an emergency.

Excellent high height

Preserve your back and raise a patient up to your best working height.

Lifting the platform height up to 820mm/32.3" (plus the mattress pad thickness), helps you to examine and treat your patient without having to stoop over, ensuring easy access and less stress. The backrest travels from 0 to 85 degrees with emergency CPR quick release.

Simple transfer

Conveniently stored handles unfold for staff friendly transportation.

Unfold the push handles to guide the stretcher with ease. When not in use, they fold away cleanly to reduce obstruction and free up space around the head of the stretcher.

Effortless cornering

Perfectly centered steer wheel for ease of movement.

Lock in the steer system to ensure the chair tracks straight along hallways and then navigates the tightest turning circles possible.

Colour choices

Identify your product with Magenta, Blue (standard supply) or Red highlights.

Add colour to your environment or use to separate products between departments or models.

Specifications

- **Overall Size:** 2200mm/86.6" long x 900mm/35.4" wide
- **Mattress Size:** 1950mm/76.8" long x 780mm/30.7" wide
- **Mattress Construction:** 110mm/4.3" thick, premium multi-layer, with welded pressure relieving cover
