

8kVA Hyundai DHY8700SE-LRS

GENERAL FEATURES

• MODEL	DHY8700SE-LRS	• FREQ.	50 Hz
• TYPE	Portable	• Canopy	Tough caseing + built in wheel kit

**HYUNDAI**
POWER PRODUCTS

DESCRIPTION

The Hyundai DHY8700SE-LRS is a single phase diesel generator, with a large 25 litre long range tank, it provides longer run times between refueling. Providing 13.5 hours of run time @75% load. The compact size and clean power output makes it a reliable source of backup electrical power for your business or home.

The built-in low alarm and automatic shutdown keeps the generator safe during operation ensuring the engine is protected at all times. The canopy has a large hinged access panel to make routine maintenance and inspection much easier and is mounted on wheels for ease of the movement.

CORE APPLICATIONS INCLUDE

This range has a wide range of custom options to suit your application including:

- Domestic Standby
- Residential/Commercial emergency power
- Off-Grid Solar Back-up power

* Please note this is not suited for Prime Power
