

# LINE RIPPER HOE

**FARMLINER®**  
VALUE - Since 1980

## LINE 300/4 – RIPPER-HOE COMBO

The Line Ripper is ideal for working with large tractors above 190HP, cultivating heavy and sticky soil, working on rocky soil, preparing large fields quickly, breaking up harvest soil and eliminating soil compacting. Used in combination with 3 metre power harrows or rotary hoes.

*Photo for illustration purposes.  
Standard specifications may not match those shown*

## APPLICATIONS

Front rippers for combination with PTO pass through to rotary hoe or power harrow.
