YOUR CONTACT

PRODUCT FAMILY

ENVIRONMENTAL

Quiet rolling

Soft wheel versions for a quiet working environment.

Low-maintenance wheels Thread guards for unobstructed

operation with minimal cleaning

effort.

Non-hazardous materials

Complies with RoHS and REACH regulations. Does not contain polycyclic aromatic carbons or chromium(VI).

Intact walls

Bumper to avoid damage to walls and the equipment.

Non-marking movement

Wheels with reduced abrasion and little cleaning requirement.

Non-staining operation

Non-staining on contact with floors during long standing periods. Can also be used for floors made of untreated wood and natural stone.

DESIGN FEATURES

Award-winning design

Presented with prestigious awards by international juries.

Unique shape

Housing with integrated thread guard.

Colour matching

Colours can be adapted to match the product design. Below you can find the standard colours. Please contact us for your desired colour!

Housing and threadguard colours

Kickstop pedal colours

PRODUCTIVITY

Fast assembly

Faster assembly thanks to easy plug-in fittings.

E

User-friendly colour scheme

Green kickstop pedal for directional lock and red kickstop pedal for total lock.

Easy steering Double ball bearing swivel head.

Ergonomic foot pedal

Easy to reach actuation pedal and extra long housing for manual operation.

Optimised steering mechanism

Directional lock for improved steering around bends, as well as moving in a straight line for long distances.

Variable fitting options

Wide range of fittings in various sizes.

SAFETY

Certified conductivity

Conductive version to protect users and electrical devices from electrostatic discharge.

Low-vibration transport

Spring loaded stem-fittings and extra soft wheels with good shockabsorbing properties.

Secured stand

Total lock for simultaneously locking the wheel and swivel housing.

Prevents unintended

movement Wheel lock with pedal for manual operation.

Anti-twist fitting

Anti-twist protection for castors with directional lock.

RELIABLE SCANNING

The Levina scan is antimagnetic (completely metalfree), perfect for the use for security scanners and magnetic resonance tomography. This product can be used worldwide without any restrictions, meaning that extensive research into country-specific regulations is no longer necessary. See technical information page 25.

Antimagnetic Completely metal-free.

Optional with total lock

Total lock for simultaneously locking the wheel and swivel housing for a secure stance.

Excellent running stability Good floor-protecting properties, grey non-marking.

Read more in our customer reference: "Transport chairs with Levina scan". Please contact us.

DURABILITY

Tested quality

Tested in our own test laboratory for compliance with European standards.

Protective seal

dirt.

Wheels with sealed bearings to

protect against spray water and

Permanent washability

All metal components made of stainless steel.

Chemical-resistant

components

Insensitive to many cleaning agents and chemical substances.

Unbreakable construction

Extremely high shock absorbing.

Compliant version

Used in commercial kitchens (DIN 18867 Part 8) and for food industry (Lerpac-approval).

HOUSING

The housing is made of Polyamide with a slim shaped fork. It is extremely high shock absorbing and the low-maintenance design with integrated thread guards reduce clogging.

The materials are tested in our own test laboratory for compliance with European standards. Non-hazardous materials are used in order to comply with RoHS and REACH regulations. These also do not contain polycyclic aromatic carbons or chromium (VI). All components are chemical-resistant and insensitive to many cleaning agents and chemical substances.

• Swivel castor Wheel and housing are free to move for an easy manoeuvrability.

Wheel brake

Wheel lock with pedal for manual operation that prevents unintended movement.

Directional lock

Directional lock for improved steering around bends, as well as movement in a straight line for long distances.

Total lock

Total lock for simultaneously locking the wheel and swivel housing for a secure stance.

Ergonomic foot pedal

In wheel diameter 125 mm these castors are also available with extra long housing for a better access to the brake pedal and increased user-friendlyness.

WHEELS

The characteristics of a wheel depend on the material and the bearing. This wheels with reduced abrasion and little cleaning requirement for non-marking movement are non-staining on contact with floors during long standing periods. They can also be used for floors made of untreated wood and natural stone.

SUPRATECH

Extremely versatile with a smooth-running thermoplastic rubber tread.

PURETECH

Robust standard with rubber tread for versatile use. Quiet rolling soft wheel version ideal for a quiet work environment.

MAXTECH

Perfect for functional design, injection-moulded polyurethane. Hard and solid wheel for a long-lasting use.

** Wheel with plain bearing 80 kg, wheel with precision ball bearing 100kg. *** Electric conductive wheels 80kg, all other wheels 100kg.

LOAD CAPACITY

The load capacity depends on the housing and wheel. It has been tested and fulfils the requirements according to EN 12530 at a speed of 4 km/h. When using 4 castors, to determine the necessary load capacity as follows: The sum of the weight of your application plus the additional load divided by 3 castors.

Weight of application + load _ Load capacity of one castor 3

PLATE FITTINGS

Secure connection with four screws. For a long-lasting use, all fittings of the Levina product family are designed using high quality bright zinc plate and blue passivated or stainless steel.

Plate fitting

PLUG-IN PLATE FITTINGS

For all castors with fitting type blind hole (L51-10) are different plug-in plate fittings available.

EXPANDING FITTINGS FOR TUBES

The adjustable expanders are for a flexible installation in different tube sizes. It is available for all castors with bolt holes (P30) in diameter 10.

Technical data and availability

Positions with this sign "-" are not available in our standard range. Please contact us.

PLUG-IN STEM FITTINGS

For all castors with a blind hole fitting (L51-10), different plug-in fittings are available which allow a faster assembly. These fittings are installation-friendly and provide additional safety due to the circlip.
